The classic reference work that provides annually updated information on the countries of the world      **A Feminist Case Study in Transnational Migration** Mary Gallant,2009-03-26 Although until now virtually unacknowledged in the field of women education Anne Jemima Clough was active throughout her long life in the field Among other positions she held the position of principal of Newnham College Cambridge for more than a decade from 1880 until her death in 1892 But in spite of her prominent position her achievements were overshadowed by her more visible and vocal contemporaries in higher education such as Emily Davies and Josephine Butler Nevertheless she was always a loyal and tenacious follower and an uncomplaining worker In a subdued way she lived and laboured fervently for the furtherance of women's education Quietly and with remarkably little encouragement or guidance she pursued and finally realized her dream a dream that would at last

allow her to help make education accessible to all women In this volume I have compiled edited and annotated most of Anne Jemima Clough s unpublished papers In addition to transcribing her diaries or notebooks I have incorporated chronologically into the text some examples of the voluminous amount of correspondence she wrote and received during a long life filled with activity The Anne Jemima Clough papers will not only provide raw material for scholars studying the women s movement during the nineteenth century but they will also be a useful and engaging read for all students and scholars of the women s movement education Victorian feminism and gender studies

**The Detective as Historian** Ray Browne, Lawrence Kreiser, 2009-03-26 Deeper understanding of history is enhanced by encasing it in art and interest Crime fiction is one of the widest and most rapidly growing forms of literature Historical crime fiction serves effectively the double purpose of entertaining while it teaches The truth of the narrative account the editors of this volume believe is dependent on the understanding of human nature reflected in the author who writes the narrative Historical crime fiction the editors of this volume write has an obligation and a golden opportunity It must bring the past up to the present through the device of timeless crime and it must take the reader into the world about which is being written so that the characters are alive and the events interesting and challenging Professional writers of fiction need to be more effective than mere authors of dates and assumed motivations Therefore they can fill in human motivations and drives where no records exist and can aid the professional historians in what historian David Thelen calls the challenge of history which is to recover the past and interpret it for the present The essays in this volume accept the challenge and make major accomplishments for meeting it

**Looking North** Dave Russell, 2004-10 Investigating areas as diverse as travel literature fiction dialect the stage radio television feature film music and sport this book assesses the portrayal of the North of England within the national culture and how this has impacted upon attitudes to the region and its place within notions of Englishness The relationship between these cultural forms and the construction of regional identity has received only limited consideration and this fascinating work provides not only much new information but also a map for future writers The North although seen ultimately as other and the subject of much critical comment is also shown here as capable of stimulating the creative imagination and invigorating English culture in
