Blue Meridian Peter Matthiessen, 2012-05-31 In 1969 Peter Matthiessen set out with the expedition led by Peter Gimbel whose aim was to find and film underwater for the first time the most dangerous of all sea creatures the great white shark Acting as the expedition's chronicler and spare hand both on the surface and below Matthiessen accompanied the crew from the Caribbean to the whaling grounds off the Durban coast to various islands in the Indian Ocean to Ceylon and finally to success off the bleak south coast of Australia Blue Meridian records the awesome experience of swimming in open water among hundreds of sharks the beauties of strange seas and landscapes and the camaraderie humour and tension of people who live in close proximity and risk their lives day by day Book Catalog of the Library and Information Services Division: Shelf List catalog Environmental Science Information Center. Selves at Risk Ihab Hassan, 1990 In this era of supersonic jets ubiquitous McDonalds and pervasive Panasonics in our coddled jacuzzi culture our cybernetic society of acronyms and first names does the spirit of quest endure Indeed from rain forests across oceans steppes savannahs and saharas to the peaks of the Andes or Himalayas American writers still test the limits of human existence They test spirit flesh marrow and imagination in a timeless quest for meaning beyond civilization at the razor edge of mortality And they return with sun cracked skin and gazes honed on horizons to tell us the tale Ihab Hassan's new book on quests turns out to be a quest of his own He takes us through an invigorating range of today's American writers as they test themselves against the far corners of our tattered planet Hassan shows us how their quests and incidentally his own entwine risks commitments and desperate exercises in belief how their aspirations are human but uniquely American This is a book everyone interested in American culture can learn from and enjoy Hassan's voice is one of graceful wisdom and passionate elegance a refreshing landfall in today's turgid sea of criticism Norman N Holland University of Florida Book Catalog of the Library and Information Services Division: Author-title-series indexes Environmental Science Information Center. Library and Information Services Division, 1977 The Human Shore John R. Gillis, 2022-12-22 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In *The Human Shore* a magisterial account of 100 000 years of seaside civilization John R Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of

the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal *The Human Shore* is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end
