groundbreaking approach to becoming more charismatic Now she teams up with Judah Pollack to reveal how anyone can
train their brain to have more eureka insights The creative mode in your brain is like a butterfly It s beautiful and erratic
hard to catch and highly valued as a result If you want to capture it you need a net Enter the executive mode the task
oriented network in your brain that help you tie your shoes run a meeting or pitch a client To succeed you need both modes
to work together your inner butterfly to be active and free but your inner net to be ready to spring at the right time and
create that aha moment But is there any way to trigger these insights beyond dumb luck Thanks to recent neuroscience
discoveries we can now explain these breakthrough moments and also induce them through a series of specific practices It
turns out there s a hidden pattern to all these seemingly random breakthrough ideas From Achimedes iconic moment in the
bathtub to designer Adam Cheyer s idea for Siri accidental breakthroughs throughout history share a common origin story In
this book you will learn to master the skills that will transform your brain into a consistent generator of insights Drawing on
their extensive coaching and training practice with top Silicon Valley firms Cabane and Pollack provide a step by step
process for accessing the part of the brain that produces breakthroughs and systematically removing internal blocks Their
tactics range from simple to zany such as Imagine an alternate universe where gravity doesn t exist and the social and legal
rules that govern it Map Disney s Pocahontas story onto James Cameron s Avatar Rid yourself of imposter syndrome through
mental exercises Literally change your perspective by climbing a tree Stimulate your butterfly mode by watching a foreign
film without subtitles By trying the exercises in this book readers will emerge with a powerful new capacity for breakthrough
