Schilli, 2022-04-10 This book describes a new and exciting variant of trivia games Rather than just having a mundane question and answer session this book will introduce you to multi dimensional techno trivia This technique uses your smart phone music and blue tooth technology to give musical clues that may help the audience to achieve the correct trivia answer in a more exciting way This approach can help both the novice and more experienced and often brilliant trivia aficionado Using this system the question is asked and while everyone contemplates the answer a song is played The song s title the song s artist and even the song s lyrics can be clues leading to the answer If you don t immediately know the answer this analysis of the song can help This produces a multichannel approach that is more complex and entertaining than the commonplace and more ordinary contest This techno trivia can be played by large groups small groups and even individuals It is a more perfect game that can be played anytime for example during a beach trip paralyzed by rain dinner parties with your friends or during any future lock down of society **The Frankster & Co, Party to Go - DJ & Karaoke** Frank
