*Uncommon Friends* Julie Adams Church,2002 In the late sixteenth century a mythical encounter was reported on an elephant hunt in the dense jungle north of the Tonle Sap or Great Lake of central Cambodia King Satha of Cambodia and his retainers were beating a path through the undergrowth when they were halted by stone giants and then a massive wall The King the fable reported ordered 6 000 men to bring down the wall thereby exposing the city of Angkor lost for over a century Subsequent reports from Portuguese missionaries described its four gateways with bridges flanked by stone figures leading across a moat There were idols covered in gold inscriptions fountains canals and a temple with five towers called Angor sic For four centuries this huge complex has inspired awe amongst visitors from all over the world but only now are its origins and history becoming clear This book begins with the progress of the prehistoric communities of the area and draws on the author s recent excavations to portray the rich and expansive chiefdoms that existed at the dawn of civilization
