**Blue Rooms** John Jerome,1997 The earth is beautiful because of water says John Jerome who sets out to explore the most ravishing examples of the element he can find The search takes him from Oklahoma swimming holes to Adirondack lakes from Canada to the Caribbean and from his earliest water memories to his mature reflections on what it is about water in its natural state that humans find so compelling

**The Extraordinary Adirondack Journey of Clarence Petty** Christopher Angus,2015-02-25 Author and naturalist Christopher Angus profiles for the first time the adventurous life of Clarence Petty one of the great pioneer conservationists of the Adirondack Mountain region of New York State Raised in the heart of the Adirondack wilderness between Tupper and Saranac Lakes Petty overcame his humble beginnings and pursued a variety of careers as wilderness guide forester Civilian Conservation Corps camp director World War II pilot district ranger and aerial forest fire fighter ultimately leaving his indelible mark as a lifelong advocate for the protection of the wilderness The story of Petty s life reads like a Horatio Alger novel His father moved to the mountains in the 1880s to work as a guide His mother was a cook for one of the popular sportsmen s hotels in the area Young Clarence and his brothers enjoyed the kind of childhood freedom and independence that today s youngsters can only dream about Their father s sense of self reliance and their mother s drive to educate her sons led all three to attend college Clarence followed a path of service to the American landscape His influence on state policy regarding the Adirondack Park and especially its millions of acres of wilderness has been profound His life story provides a window into the politics of conservation in the Adirondack region from the early days of the twentieth century to the present

**Swim** Lynn Sherr,2012-04-03 Swim is a celebration of swimming and the effect it has on our lives It s an inquiry into why we swim the lure the hold the timeless magic of being in the water It s a look at how swimming has changed over the millennia how this ancient activity is becoming more social than solitary today It s about our relationship with the water with our fishy forebearers and with the costumes that we wear You ll even find a few songs to sing when you push out those next laps Swimming enthusiast Lynn Sherr explores every aspect of the sport from the biology of swimming to the fame of Esther Williams from turquoise pools and wild water to the training of Olympians and she reveals the secret of buoyancy so that anyone can avoid the example of the English poet Percy Bysshe Shelley who lamented Why can t I swim it seems so very easy When his friend the biographer Edward John Trelawny said because you think you can t Shelley plunged into Italy s Arno River and dropped like a rock With Swim you can avoid that happening to you

**Canoe & Kayak** ,1998 **Off the Deep End** Nic Compton,2017-09-21 Confined in a small space for months on end subject to ship s discipline and living on limited food supplies many sailors of old lost their minds and no wonder Many still do The result in some instances was bloodthirsty mutinies such as the whaleboat Sharon whose captain was butchered and fed to the ship s pigs in a crazed attack in the Pacific Or mob violence such as the 147 survivors on the raft of the Medusa who slaughtered each other in a two week orgy of violence So serious was the problem that the Royal

Navy's own physician claimed sailors were seven times more likely to go mad than the rest of the population. Historic figures such as Christopher Columbus, George Vancouver, Fletcher Christian, leader of the *Bounty*, and Robert FitzRoy, founder of the Met Office, have all had their sanity questioned. More recently, sailors in today's round the world races often experience disturbing hallucinations, including seeing elephants floating in the sea and strangers taking the helm, or suffer complete psychological breakdown like Donald Crowhurst. Others become hypnotised by the sea and jump to their deaths. *Off the Deep End* looks at the sea's physical character, how it confuses our senses and makes rational thought difficult. It explores the long history of madness at sea and how that is echoed in many of today's yacht races. It looks at the often marginal behaviour of sailors living both figuratively and literally outside society's usual rules. And it also looks at the sea's power to heal as well as cause madness.

**Veer Ecology** Jeffrey Jerome Cohen, Lowell Duckert, 2017-12-15. The words most commonly associated with the environmental movement: save, recycle, reuse, protect, regulate, restore, describe what we can do to help the environment, but few suggest how we might transform ourselves to better navigate the sudden turns of the late Anthropocene. Which words can help us to veer conceptually along with drastic environmental flux? Jeffrey Jerome Cohen and Lowell Duckert asked thirty brilliant thinkers to each propose one verb that stresses the forceful potential of inquiry, weather, biomes, apprehensions, and desires to swerve and sheer. Each term is accompanied by a concise essay contextualizing its meaning in times of resource depletion, environmental degradation, and global climate change. Some verbs are closely tied to natural processes: compost, saturate, seep, rain, shade, sediment, vegetate, environ. Many are vaguely unsettling: drown, unmoor, obsolesce, power down, haunt. Others are enigmatic or counterintuitive: curl, globalize, commodify, ape, whirl. And while several verbs pertain to human affect and action: love, represent, behold, wait, try, attune, play, remember, decorate, tend, hope. A primary goal of *Veer Ecology* is to decenter the human. Indeed, each of the essays speaks to a heightened sense of possibility, awakening our imaginations and inviting us to think the world anew from radically different perspectives. A groundbreaking guide for the twenty-first century, *Veer Ecology* foregrounds the risks and potentialities of living on and with an alarmingly dynamic planet.

**Forthcoming Books** Rose Army, 1997-04 *Subject Guide to Books in Print* , 1991 **The Washington Post Index** , 1989 The Blue Flower and Others Henry Van Dyke, 2023-07-18 The parents were abed and sleeping The clock on the wall ticked loudly and lazily as if it had time to spare Outside the rattling windows there was a restless whispering wind The room grew light and dark and wondrous light again as the moon played hide and seek through the clouds The boy wide awake and quiet in his bed was thinking of the Stranger and his stories It was not what he told me about the treasures he said to himself that was not the thing which filled me with so strange a longing I am not greedy for riches But the Blue Flower is what I long for I can think of nothing else Never have I felt so before It seems as if I had been dreaming until now or as if I had just slept over into a new world Who cared for flowers in the old world where I used to live I never heard of anyone whose whole heart was set upon finding a flower But now I cannot even tell all that I feel sometimes as happy as if I were enchanted But when

the flower fades from me when I cannot see it in my mind then it is like being very thirsty and all alone That is what the other people could not understand Once upon a time they say the animals and the trees and the flowers used to talk to people It seems to me every minute as if they were just going to begin again When I look at them I can see what they want to say There must be a great many words that I do not know if I knew more of them perhaps I could understand things better I used to love to dance but now I like better to think after the music Gradually the boy lost himself in sweet fancies and suddenly he found himself again in the charmed land of sleep He wandered in far countries rich and strange he traversed wild waters with incredible swiftness marvellous creatures appeared and vanished he lived with all sorts of men in battles in whirling crowds in lonely huts He was cast into prison He fell into dire distress and want All experiences seemed to be sharpened to an edge He felt them keenly yet they did not harm him He died and came alive again he loved to the height of passion and then was parted forever from his beloved At last toward morning as the dawn was stealing near his soul grew calm and the pictures showed more clear and firm
