Khanna, 2015-12-04 This book examines the deeply divided terrain of the twentieth century city and its formative impact on narrative fiction It focuses on two major world authors at the two ends of the twentieth century who write systematically about the colonial and postcolonial cities they were born in James Joyce and Dublin and Salman Rushdie and Bombay **Permission to Shoot?** Jyoti Belur, 2010-09-27 Extrajudicial executions have blighted parts of the world for generations but criminological coverage has been superficial and selective in that it has concentrated on South America giving the impression that this is a problem specific to that part of the world and associated with military rule dictatorial regimes and colonial heritage *Permission to Shoot* Police Use of Deadly Force in Democracies brings a new dimension to the problem of police abuse of deadly force by concentrating on India and the United

States both large democracies and vibrant superpowers In the book the research is based on primary sources interviews with police officers of varying ranks those who are involved in the killings those who facilitate such operations and those who are mute spectators The book deals with universal fundamental themes such as what makes ordinary decent human beings do horrible things What motivational techniques and justifications are used to override social norms governing moral conduct centring on the sector of society mandated to use deadly force against civilians Why in a democratic country the abuse of police powers appears to be overtly and tacitly encouraged Permission to Shoot seeks to provide broad guidelines and recommendations for reforms in policing policy and practice in developing countries The research peels back the lies and deceit that surround this issue but more than that it shows how those lies and deceit act to support the practice itself

Predatory Urbanism Agatino Rizzo, Anindita Mandal, 2021-06-25 Addressing the complex interrelationships between city making and the resources needed for its production *Predatory Urbanism* explores the link between urbanization and resources in the global South It particularly focuses on urban megaprojects highlighting these planned developments and redevelopments carried out by the state or state linked agencies

Indian Cities in Transition Annapurna Shaw, 2007 Urban India has been in transition for centuries but perhaps never more so than since the last decade of the twentieth century when the national economy was opened wide to international trade and competition *Indian Cities in Transition* seeks to understand the nature of change that Indian cities are undergoing from a multidisciplinary perspective There are seventeen essays in the volume encompassing the work of urban planners geographers demographers social anthropologists economists and political scientists They examine the processes of demographic environmental economic political and social change and their impact on Indian cities Based on different aspects of change the articles are categorised under five sub themes globalisation and urban restructuring environmental impacts of liberalisation economic dimensions of the post 1990s reforms political economy of change in the planning and management of Indian cities and liberalisation and its micro level impacts

Cities in South Asia Crispin Bates, Minoru Mio, 2015-05-22 Globalisation has long historical roots in South Asia but economic liberalisation has led to uniquely rapid urban growth in South Asia during the past decade This book brings together a multidisciplinary collection of chapters on contemporary and historical themes explaining this recent explosive growth and transformations on going in the cities of this region The essays in this volume attempt to shed light on the historical roots of these cities and the traditions that are increasingly placed under strain by modernity as well as exploring

the lived experience of a new generation of city dwellers and their indelible impact on those who live at the city's margins. The book discusses that previously cities such as Mumbai grew by accumulating a vast hinterland of slum dwellers who depressed wages and supplied cheap labour to the city's industrial economy. However, it goes on to show that the new growth of cities such as Bangalore, Hyderabad and Madras in south India or Delhi and Calcutta in the north of India is more capital intensive, export driven and oriented towards the information technology and service sectors. The book explains that these cities have attracted a new elite of young educated workers with money to spend and an outlook on life that is often a complex mix of modern ideas and conservative tradition. It goes on to cover topics such as the politics of town planning, consumer culture and the struggles among multiple identities in the city. By tracing the genealogies of cities, it gives a useful insight into the historical conditioning that determines how cities negotiate new changes and influences. There will soon be more mega cities in South Asia than anywhere else in the world, and this book provides an in-depth analysis of this growth. It will be of interest to students and scholars of South Asian History, Politics and Anthropology as well as those working in the fields of urbanisation and globalisation.

Bombay in Transition Meera Kosambi, 1986 *Toward a Free Economy* Aditya Balasubramanian, 2023-07-18

The unknown history of economic conservatism in India after independence. Neoliberalism is routinely characterized as an antidemocratic, expert-driven project aimed at insulating markets from politics, devised in the North Atlantic and projected on the rest of the world. Revising this understanding, *Toward a Free Economy* shows how economic conservatism emerged and was disseminated in a postcolonial society consistent with the logic of democracy. Twelve years after the British left India, a Swatantra Freedom Party came to life. It encouraged Indians to break with the Indian National Congress Party, which spearheaded the anticolonial nationalist movement and now dominated Indian democracy. Rejecting Congress's heavy industrial developmental state and the accompanying rhetoric of socialism, Swatantra promised a free economy through its project of opposition politics. As it circulated across various genres, free economy took on meanings that varied by region and language, caste and class, and won diverse advocates. These articulations, informed by but distinct from neoliberalism, came chiefly from communities in southern and western India as they embraced new forms of entrepreneurial activity. At their core, they connoted anticommunism, unfettered private economic activity, decentralized development, and the defense of private property. Opposition politics encompassed ideas and practice. Swatantra's leaders imagined a conservative alternative to a progressive dominant party in a two-party system. They communicated ideas and mobilized people around such issues as inflation, taxation, and property. And they made creative use of India's institutions to bring checks and balances to the political system. Democracy's persistence in India is uncommon among postcolonial societies. By excavating a perspective of how Indians made and understood their own democracy and economy, Aditya Balasubramanian broadens our picture of neoliberalism, democracy, and the postcolonial world.

larger context of contemporary Indian women's movements AIDWA is assessed and analyzed as a left oriented party affiliated all India women's organization An examination of its administrative structure provides a basis from which to compare the various state level approaches to activism The book sheds light on the ongoing theoretical debates of Marxism and feminism and their compatibilities in their Indian specific circumstances Investigating the first 25 years of AIDWA's existence 1981-2006 the book looks at the explicit relationship between the Communist Party of India Marxist and AIDWA and how both cooperate and define each other Series Gender Discussion Gender Diskussion Vol 25 Subject Sociology Politics Women's Studies Feminism India Studies History *Topographies of Faith*, 2013-04-15 Based on ethnographic explorations in cities across the globe *Topographies of Faith* offers a unique and compelling analysis of contemporary religious dynamics in metropolitan centers While most scholarship on religion still sidelines questions of spatiality and scale this book creatively draws on perspectives from urban studies to study the spatiality of religion in modern cities It shows how globalization transnational migration and urban expansion in big cities engender new religious forms and practices and their spatial underpinnings Space affects urban religious diversity religious innovations decline or vitality But it also shapes the relationships between religion and social equalities Spanning distances between New York Delhi and Johannesburg the book also engages with issues of secularity and religious vitality in genuinely new ways Contributors include Irene Becci Synn ve Bendixsen Marian Burchardt Jos Casanova Murat Es Ajay Gandhi Weishang Huang Godwin Onuoha Samadia Sadouni Peter van der Veer and Leilah Vevaina **Inside the Transforming Urban Asia** Darshini Mahadevia, 2008 Contributed articles chiefly with reference to India and China *Fantasy of Modernity* Aarti Wani, 2016-02-25 Looks at the role of love in 1950s Bombay cinema in terms of its cultural function and its social significance **Exploring Indian Modernities** Leïla Choukroune, Parul Bhandari, 2018-06-04 This book analyses how multiple and hybrid modernities have been shaped in colonial and postcolonial India from the lens of sociology and anthropology literature media and cultural studies law and political economy It discusses the ideas that shaped these modernities as well as the lived experience and practice of these modernities The two broad foci in this book are a The dynamism of modern institutions in India delineating the specific ways in which ideas of modernity have come to define these institutions and how institutional innovations have shaped modernities and b perspectives on everyday practices of modernities and the cultural constituents of being modern This book provides an enriching read by bringing together original papers from diverse disciplines and from renowned as well as upcoming scholars
