Diaspora Networks in International Business Maria Elo, Indira Minto-Coy, 2018-08-12. This contributed volume focuses on diasporans, their characteristics, networks, resources and activities in relation to international business and entrepreneurship. It presents an overview of diaspora concepts from an economic perspective and analyzes the global economic and societal effects and mechanisms, revealing both positive and negative aspects of diaspora activities. Providing insights into the socio-cultural influences, it discusses diaspora entrepreneurship and international business, the respective organisational models, investments and business types. Lastly, it offers an assessment of managing diaspora resources and policymaking. This book was created by an interdisciplinary team of editors, co-authors and reviewers, including historians, sociologists, psychologists, linguists and ethnologists, as well as experts in public policy, international business, marketing and entrepreneurship. This unique team, many of whose authors are themselves diasporans with an extensive understanding of their topic, provides the first global academic platform on the subject, combining the latest empirical evidence from developing, emerging, transitional and developed countries with various combinations of diaspora flows that to date have received little attention.
