Painting Music in the Sixteenth Century H. Colin Slim, 2024-10-28 Professor Slim deals here with the several roles that music can play in the artworks of the Renaissance looking in particular at Italian painting of the 16th century For understandable reasons art historians sometimes neglect the role of music and especially that of musical notation when studying works of art These studies not only identify musical compositions wholly or partially inscribed in paintings and tapestries ceramics prints as well but also seek reasons why these particular musical compositions were included and analyse their relevance to the scene depicted Furthermore as many of these studies show identifying a musical composition especially if it has a text leads to the formation of ideas about iconographical functions and thus augments interpretations of the visual art

Art and the Religious Image in El Greco's Italy Andrew R. Casper, 2015-06-13 Art and the Religious Image in El Greco s Italy is the first book length examination of the early career of one of the early modern period s most notoriously misunderstood figures Born around

1541 Domenikos Theotokopoulos began his career as an icon painter on the island of Crete. He is best known under the name El Greco for the works he created while in Spain, paintings that have provoked both rapt admiration and scornful disapproval since his death in 1614. But the nearly ten years he spent in Venice and Rome from 1567 to 1576 have remained underexplored until now. Andrew Casper's examination of this period allows us to gain a proper understanding of El Greco's entire career and reveals much about the tumultuous environment for religious painting after the Council of Trent. Art and the Religious Image in El Greco's Italy is a new book in the Art History Publication Initiative (AHPI), a collaborative grant from the Andrew W. Mellon Foundation. Thanks to the AHPI grant, this book will be available in popular e-book formats.
