Of Fiction:

The Rhetoric of Fiction Wayne C. Booth, 2010-05-15 The first edition of *The Rhetoric of Fiction* transformed the criticism of fiction and soon became a classic in the field One of the most widely used texts in fiction courses it is a standard reference point in advanced discussions of how fictional form works how authors make novels accessible and how readers recreate texts and its concepts and terms such as the implied author the postulated reader and the unreliable narrator have become part of the standard critical lexicon For this new edition Wayne C Booth has written an extensive Afterword in which he clarifies misunderstandings corrects what he now views as errors and sets forth his own recent thinking about the rhetoric of fiction The other new feature is a Supplementary Bibliography prepared by James Phelan in consultation with the author which lists the important critical works of the past twenty years two decades that Booth describes as the richest in the history of the subject

The Musicalization of Fiction Werner Wolf, 2023-12-11 This volume is a pioneering study in the theory and history of the imitation of music in fiction and constitutes an important contribution to current intermediality research Starting with a comparison of basic similarities and differences between literature and music the study goes on to provide outlines of a general theory of intermediality and its fundamental forms in which a more specialized theory of the musicalization of narrative literature based on contemporary narratology and a typology of the forms of musico literary intermediality are embedded It also addresses the question of how to recognize a musicalized fiction when reading one and why Sterne's *Tristram Shandy* contrary to what has been previously said is not to be regarded as a musicalized fiction In its historical part the study explores forms and functions of experiments with the musicalization of fiction in English literature After a survey of the major preconditions for musicalization the increasing appreciation of music in 18th and 19th century aesthetics and its main causes exemplary fictional texts from romanticism to postmodernism are analyzed Authors interpreted are De Quincey Joyce Woolf A Huxley Beckett Burgess and Josipovici Whilst the limitations of a transposition of music into fiction remain apparent experiments in this field yield valuable insights into mainly a mimetic and formalist aesthetic tendencies in the development of more recent fiction as a whole and also show to what extent traditional conceptions of music continue to influence the use of this medium in literature The volume is of relevance for students and scholars of English comparative and general literature as well as for readers who take an interest in intermediality or interart research

The Distinction of Fiction Dorrit Cohn, 2000-12 Winner of the Aldo and Jeanne Scaglione Prize for Comparative Literary Studies from the Modern Language Association Winner of the Modern Language Association's Aldo and Jeanne Scaglione Prize for Comparative Literary Studies The border between fact and fiction has been trespassed so often it seems to be a highway Works of history that include fictional techniques are usually held in contempt but works of fiction that include history are among the greatest of classics Fiction claims to be able to convey its own unique kinds of truth But unless a reader knows in advance whether a narrative is fictional or not judgment can be frustrated and confused In *The*

Distinction of Fiction Dorrit Cohn argues that fiction does present specific clues to its fictionality and its own justifications. Indeed, except in cases of deliberate deception, fiction achieves its purposes best by exercising generic conventions that inform the reader that it is fiction. Cohn tests her conclusions against major narrative works including Proust's *A la Recherche du temps perdu*, Mann's *Death in Venice*, Tolstoy's *War and Peace*, and Freud's case studies. She contests widespread poststructuralist views that all narratives are fictional. On the contrary, she separates fiction and nonfiction as necessarily distinct, even when bound together. An expansion of Cohn's Christian Gauss lectures at Princeton and the product of many years of labor and thought, *The Distinction of Fiction* builds on narratological and phenomenological theories to show that boundaries between fiction and history can be firmly and systematically explored.

Thackeray and Form of Fiction

John Loofbourow, 2015-12-08 In a critical examination of Thackeray's style, Mr Loofbourow shows how Thackeray hybridized the genre of the romance by adapting the tone and language of the epic, the chivalric romance, and the pastoral, and by carrying parody and satire to a high technical level. Thackeray used these techniques with particular success in *Vanity Fair* and *Henry Esmond*. Besides analyzing these two works, Mr Loofbourow discusses the significance of epic in the 19th century, the expressive values of the novel as a whole, and the relevance of Thackeray's methods to the work of such writers as George Eliot, Henry James, Virginia Woolf, and E. M. Forster. His book is an attempt to come to terms with Thackeray's style and a work conceivably destined to become a landmark among the very few acceptable studies of English fiction. It should prove indispensable to anyone interested in style in fiction and should at the same time precipitate a new trend in Thackeray scholarship. Originally published in 1964, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Richardson,2017-07-27 From the gothic fantasies of Walpole s Otranto to post modern takes on the country house by Kazuo Ishiguro and Ian McEwan Phyllis Richardson guides us on a tour through buildings real and imagined to examine how authors personal experiences helped to shape the homes that have become icons of English literature We encounter Jane Austen drinking too much wine in the lavish ballroom of a Hampshire manor discover how Virginia Woolf s love of Talland House at St Ives is palpable in *To the Lighthouse* and find Evelyn Waugh remembering Madresfield Court as he plots Charles Ryder s return to *Brideshead* Drawing on historical sources biographies letters diaries and the novels themselves *House of Fiction* opens the doors to these celebrated houses while offering candid glimpses of the writers who brought them to life

however a flood of wildly popular revenge tragedies such as Hamlet by their very form by their outrageous theatrical grotesques were shouting the need for change in the justice system A sustained discussion of the genre illustrates how biological homeostasis underpins the social balance that we maintain with difficulty and how disorder itself incubates new understanding
