Of Knowledge the Imam Al Ghazzali:

The Confessions of Al Ghazzali Ghazzali, 2019-11-21 In *The Confessions of Al Ghazzali* the renowned Islamic philosopher and theologian offers an intimate glimpse into his spiritual journey grappling with existential questions and the quest for divine truth. Written in a reflective prose that seamlessly blends philosophy and spirituality, Ghazzali's work is set against the backdrop of the Islamic Golden Age, contributing richly to the discourse on faith, reason, and the nature of the self. His candid revelations reveal the inner turmoil and epiphanies that ultimately led him to a deeper understanding of the divine, making this text a poignant exploration of the human condition and its yearning for connection with God. Al Ghazzali, often considered one of the most significant figures in Islamic thought, was deeply influenced by his own spiritual crisis that led to his withdrawal from public life and intensive study. His extensive background in law, theology, and philosophy culminated in a unique synthesis of ideas that resonate across cultures and time periods. Drawing from the works of predecessors like Al Farabi and Avicenna, Ghazzali's insights reflect a quest to bridge the gap between reason and faith, highlighting the importance of personal experience in understanding spirituality. This book is an essential read for anyone interested in Islamic philosophy as well as those seeking to understand the complexities of faith and reason. *The Confessions of Al Ghazzali* is not merely a memoir; it is a profound invitation to reflect on the nature of belief, the struggles of the soul, and the ultimate search for truth, making it a timeless contribution to philosophical literature. This is the only book to deal with classical Islamic cosmology as it was formulated by the Ikhwan al S afa al Biruni and Ibn Sina during the tenth and eleventh centuries These figures influenced all the later centuries of Islamic history and in fact created the cosmological framework within which all later scientific activity in the Islamic world was carried out the enduring image of the cosmos within which Muslims have lived during the past millennium Nasr writes from within the Islamic tradition and demonstrates how based on the teachings of the Quran and the Prophet the figures treated in this work integrated elements drawn from various ancient schools of philosophy and the sciences This book is unique in its treatment of classical Islamic cosmology as seen from within the Islamic world view and provides a key for understanding of traditional Islamic thought Back cover

In Unknowing and the Everyday Seema Golestaneh examines how Sufi mystical experience in Iran shapes contemporary life Central to this process is ma rifat or unknowing the idea that as it is ultimately impossible to fully understand the divine humanity must operate from an engaged awareness that it knows nothing Golestaneh shows that rather than considering ma rifat an obstacle to intellectual engagement Sufis embrace that there will always be that which they do not know From this position they affirm both the limits of human knowledge and the mysteries of the profane world Through ethnographic case studies Golestaneh traces the affective and sensory dimensions of ma rifat in contexts such as the creation of collective Sufi spaces the interpretation of Persian poetry formulations of selfhood and non selfhood and the navigation of the socio material realm By outlining the relationship between ma rifat and religious aesthetic and social life in Iran Golestaneh demonstrates that for Sufis the outer bounds of human thought are the beginning rather than the limit
