

Personal Religion And The Life Of Devotion

W. R. Inge

Of Personal Religion

Robert W. Crapps

Of Personal Religion:

Personal Experience and Materiality in Greek Religion K.A. Rask, 2023-04-14 Employing frameworks of lived religion and materiality this book provides the first full length study of personal religious experience in the Greek Archaic and Classical periods Rask analyzes archeological epigraphic and textual evidence to highlight the role of individuals as vital actors and makers of Greek religion A range of perspectives such as those of Archaic mariners and Late Classical weaving women show that religion infused the daily lives of ancient Greeks Chapters visit the many spaces where people engaged in religious activities from household kitchens to international emporia as well as shrines both large and small The book also interrogates devotional activities such as making votives and engaging in lifelong relationships with divinities arguing for the emotionally rich character of Greek lived religion Not only do these considerations demonstrate underexplored ways for reconstructing aspects of Greek religion but also allow us to rethink familiar subjects such as votive portraits and epiphany from new angles *Personal Experience and Materiality in Greek Religion* is of interest to students and scholars working on ancient Greek religion and archeology as well as anyone interested in daily life and lived experience in the ancient world

Personal Religion (1915) Charles Herbert Rust, 2009-04 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

Varieties of Personal Theology David T. Gortner, 2016-02-17 *Varieties of Personal Theology* starts from the premise that all human beings are folk theologians active not only in constructing selves but also in constructing worlds and guiding philosophies of life Through fascinating indepth interviews and surveys David Gortner looks specifically at emerging adults aged 18 25 as young theologians who regardless of religious background wrestle with fundamental questions of place purpose ultimate cause and ultimate aims in life This book charts the subtle and significant influences of social class family school work peer relationships religion and intrinsic attitudes and dispositions on young adults personal theologies and traces the ways their personal theologies connect with choices they make in their daily lives in education jobs leisure and relationships Intentionally crossing boundaries between religious and social science fields Gortner combines perspectives from both to demonstrate how theological diversity persists in America despite some clear culturally dominant trends This book reveals how American young adults are active theologians forging diverse ways of seeing and being in the world shaped by their experiences and in turn continuing to shape their choices in life

The Local Horizon of Ancient Greek Religion Hans Beck, Julia Kindt, 2023-04-13 Which dimensions of the religious experience of the ancient Greeks become tangible only if we foreground its local horizons This book explores the manifold ways in which Greek religious beliefs and practices are encoded in and communicate with various local environments Its individual chapters explore the local in its different forms

and formulations Besides the polis perspective they include numerous other places and locations above and below the polis level as well as those fully or largely independent of the city state Overall the local emerges as a relational concept that changes together with our understanding of the general or universal forces as they shape ancient Greek religion The unity and diversity of ancient Greek religion becomes tangible in the manifold ways in which localizing and generalizing forces interact with each other at different times and in different places across the ancient Greek world *Religion and Mental Health* ,1980 Handbook of the Sociology of Religion Michele Dillon,2003-08-18 Table of contents **An Introduction to Psychology of Religion** Robert W. Crapps,1986 Developed in almost thirty years of classroom experience this book is designed to introduce students and other readers to the psychological study of religion Robert W Crapps deals with the major questions and figures that have dominated the psychological study of religion over the past century dividing the discussion into four parts Two chapters in part one suggest the problems and possibilities for the psychological study of religion in light of the nature of religion and the scientific method Part two sketches the contributions to the study of religion of three intellectual currents in contemporary psychology psychoanalysis behaviorism and humanistic psychology part three explores the relationship between religion and human development while part four directs attention to religious lifestyles and that weave differentiated parts of human experience into a cohesive whole Publisher description **Current Issues in the Psychology of Religion** J. A. Van Belzen,Jan van der Lans,1986 **Religion in Mind** Jensine Andresen,2001-06-28 Religion in Mind is a 2001 text which summarizes and extends the advances in the cognitive study of religion throughout the 1990s It uses empirical research from psychology and anthropology to illuminate various components of religious belief ritual and experience The book examines cognitive dimensions of religion within a naturalistic view of culture while respecting the phenomenology of religion and drawing together teachers of religion psychologists of religion and cognitive scientists Expert contributors focus on phenomena such as belief fixation and transmission attributions of agency anthropomorphizing counterintuitive religious representations the well formedness of religious rituals links between religious representations and emotions and the development of god concepts The work encourages greater interdisciplinary linkages between scholars from different fields and will be of interest to researchers in anthropology psychology sociology history philosophy and cognitive science It also will interest more general readers in religion and science Myth and the Christian Nation Burton L. Mack,2014-12-18 America is widely regarded as the ultimate Christian Nation Religious language has always been at the forefront of American politics but this has increased since the events of 9 11 Myth and the Christian Nation presents a startling analysis of how and why Christianity and national identity have been woven together in recent American political discourse Drawing on examples of religious myth making across the ancient world Myth and the Christian Nation brings the weight of history to bear on America today a place where myth monotheism sovereignty and power can be harnessed together in the service of specific interests The book invites readers to rethink the role of religion in the construction of

social democracy and to see America afresh

Possibilities and Limitations of Religion-Related Dialogue in Schools in Europe Wolfram Weisse, 2024-02-01 Preparing pupils to engage with religious and cultural heterogeneity is increasingly seen as a key task for school education This book presents research on religion related dialogue in European schools and addresses the complex intersection of various factors supporting or hindering it The volume offers findings of the international research project Religion and Dialogue in modern societies ReDi The chapters present analyses of school case studies in five European cities London England Hamburg and Duisburg Germany Stockholm Sweden and Stavanger Norway to empirically answer the question What are possibilities and limitations of religion related dialogue in schools Possibilities and Limitations of Religion Related Dialogue in Schools in Europe will be a key resource for practioners and researchers of religious education education studies educational research religious studies and sociology It was originally published as a special issue of the Religion Education

Russell on Religion Bertrand Russell, 1999 Bertrand Russell s religious convictions were controversial and one of his best selling titles is Why I am not a Christian This is a comprehensive and coherent survey of Russell on religion with notes for students

Introducing World Religions Victoria Kennick Urubshurow, 2008

How Teachers in Europe Teach Religion Hans-Georg Ziebertz, Ulrich Riegel, 2009 In 2007 around 3500 teachers in 16 European countries participated in a cross cultural study of existing teaching procedures in religion and theology This text shows the results which present different approaches strategies and ways of thinking when it comes to teaching religion in a multicultural context

The Psychology of Prejudice Mark P. Zanna, James M. Olson, 2013-04-15 This volume consists of expanded and updated versions of papers presented at the Seventh Ontario Symposium on Personality and Social Psychology The series is designed to bring together scholars from across North America who work in the same substantive area with the goals of identifying common concerns and integrating research findings The topic of this symposium was the psychology of prejudice and the presentations covered a wide variety of issues The papers present state of the art research programs addressing prejudice from the point of view of both the bigoted person as well as the victim of bigotry The chapter authors confront this issue from two major and previously separate research traditions the psychology of attitude and intergroup conflict The chapters are organized in the following sequence of topics the determinants and consequences of stereotypes individual differences in prejudicial attitudes intergroup relations the responses of victims to prejudice and discrimination and an integrative summary commentary Illustrating both the diversity and vitality of research on the psychology of prejudice the editors hope that this volume will stimulate further research and theorizing in this area

Political and Judicial Rights through the Prism of Religious Belief Carl Sterkens, Hans-Georg Ziebertz, 2018-10-24 This innovative volume is focused on the relationship between religion on the one hand and political and judicial rights on the other At a time when the so called checks and balances that guarantee the vulnerable equilibrium between legislative executive and judicial branches of governance are increasingly under pressure this book offers valuable insights It presents empirical work that has

measured young people's attitudes and explains the variety found across their views. Readers will find answers to the question: To what extent do youths in different countries support political and judicial human rights and what influences their attitudes towards these rights? The political rights in this question include among others active and passive voting, the right to protest and the rights of refugees. Judicial rights refer in general to the right of a fair trial and include principles like equality before the law, the right to independent and impartial judgement, the presumption of innocence, the right to legal counsel and the privilege against self incrimination. Expert contributing authors look at aspects such as religious beliefs and practices, personal evaluation of state authorities and personality characteristics. The authors discuss contextual determinants for attitudes towards political and judicial rights in both theory and empirical indicators. Numerous helpful tables and figures support the written word. This book makes an original contribution to research through the empirical clarification of factors that induce or reduce people's support of political and judicial rights. It will appeal to graduates and researchers in religious studies, philosophy or sociology of religion among other disciplines but it will also interest the general reader who is concerned with matters of human rights and social justice. *Oxford Textbook of Spirituality in Healthcare* Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09

The relationship between spirituality and healthcare is historical, intellectual and practical and it has now emerged as a significant field in health research, healthcare policy and clinical practice and training. Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness, suffering, healing and loss. If healthcare has compassionate regard for the humanity of those it serves, it is faced with questions about how it understands and interprets spirituality, what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare. These questions are the basis for this resource which presents a coherent field of enquiry, discussion and debate that is interdisciplinary, international and vibrant. There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject. *Spirituality in Healthcare* is an authoritative reference on the subject providing unequalled coverage, critical depth and an integrated source of key topics. Divided into six sections including practice, research, policy and training, the project brings together international contributions from scholars in the field to provide a unique and stimulating resource. *Religion* Elizabeth Johnston Taylor, 2012-03-07. Named a 2012 PROSE Award Honorable Mention in the Nursing category. Views on health and suffering, explanations for disease, beliefs and practices related to birthing, childrearing and dying, healing rituals, corporate religious resources for the sick and more. Prefacing this information are chapters discussing clinical aspects of addressing religion at the bedside. These include strategies for sensitive and respectful communication about religion with patients, assessing a patient's religious beliefs, supporting bedside rituals that are part of a patient's religion and understanding ethical and legal considerations. The book also provides a

comprehensive list of additional resources Key Features Provides quick access to information about the 20 plus families of religions most prevalent among Americans and others in English speaking First World countries Presents practical and concise information about various religions in a succinct table format Offers detailed communication techniques for clinicians who are uncomfortable discussing religion with patients Includes techniques for self assessment of religious views and values and how these can affect care Presents legal and ethical aspects of addressing religiosity in patient care The Idea of God

in Early Religions ,1910 **Religious Faith and Teacher Knowledge in English Language Teaching** Bradley Baurain,2016-01-14 The field of TESOL Teaching English to Speakers of Other Languages stands at an active crossroads issues of language culture learning identity morality and spirituality mix daily in classrooms around the world What roles might teachers personal religious beliefs play in their professional activities and contexts Until recently such questions had been largely excluded from academic conversations in TESOL Yet the qualitative research at the core of this book framed and presented within a teacher knowledge paradigm demonstrates that personal faith and professional identities and practices can and do interact and interrelate in ways that are both meaningful and problematic This study s Christian TESOL teacher participants working overseas in Southeast Asia perceived explained and interpreted a variety of such connections within their lived experience As a result the beliefs practices nexus deserves to be further theorized researched and discussed Religious beliefs and human spirituality as foundational and enduring aspects of human thought and culture and thus of teaching and learning deserve a place at the TESOL table
