technology with which women forged new and mobile public lives cycle wear This illustrated account of women s cycle wear from Goldsmiths Press brings together Victorian engineering and radical feminist invention to supply a missing chapter in the history of feminism Despite its benefits cycling was a material and ideological minefield for women Conventional fashions were unworkable with skirts catching in wheels and tangling in pedals Yet wearing rational cycle wear could provoke verbal and sometimes physical abuse from those threatened by newly mobile women Seeking a solution pioneering women not only imagined made and wore radical new forms of cycle wear but also patented their inventive designs The most remarkable of these were convertible costumes that enabled wearers to transform ordinary clothing into cycle wear Drawing on in depth archival research and inventive practice Kat Jungnickel brings to life in rich detail the little known stories of six inventors of the 1890s Alice Bygrave a dressmaker of Brixton registered four patents for a skirt with a dual pulley system built into its seams Julia Gill a court dressmaker of Haverstock Hill patented a skirt that drew material up the waist using a mechanism of rings or eyelets Mary and Sarah Pease sisters from York patented a skirt that could be quickly converted into a fashionable high collar cape Henrietta M ller a women s rights activist of Maidenhead patented a three part cycling suit with a concealed system of loops and buttons to elevate the skirt And Mary Ann Ward a gentlewoman of Bristol patented the Hyde Park Safety Skirt which gathered fabric at intervals using a series of side buttons on the skirt Their unique contributions to cycling s past continue to shape urban life for contemporary mobile women **Biographical Research** Ana Caetano,Magda

Nico,2022-03-30 Studying people s lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning This book testifies how challenging and creative the study of these connections can be It gathers international contributions that show in imaginative ways how a person s life or specific domains of existence can be observed tackled and analysed across time This volume reveals the potential of biographical research in the production of social theory in the development of methodological innovation in giving voice and protagonism to people and in the understanding of the social unfolding of their lives It is a testimony of a vibrant and youthful field with a long tradition in social sciences and with numerous connections with other study areas namely the life course approach The different chapters illustrate how the challenges posed by this type of research focused on the individual level of analysis are particular and what creative responses are required to continue analysing the link between biography and society The chapters in this book were originally published as a special issue of the journal Contemporary Social Science **Forestry Current Literature** ,1930

The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1900 **REDEMPTION OF THE DAMNED: VOL. 1 AERIAL PHENOMENA** Martin Shough,2019-06-28 **UNRAVELLING AERIAL MYSTERIES OF THE PAST** Charles Fort published his first and most influential book The Book of the Damned a century ago in 1919 collecting together many historical reports of strange aerial phenomena Since the birth of the UFO controversy in 1947 Fort s writings have been cited in countless books and web pages Yet this is the first time in a hundred years that researchers have systematically

verified the sources and content of every one of these oft recycled stories correcting many errors placing each case in its historical context and submitting it to a careful scientific investigation in an attempt to find a conventional answer What were these reported phenomena Is it possible to find non exotic explanations With the advantage of modern knowledge methods and resources in most cases the answer proves to be yes Some of the solutions found may shock the general reader and surprise even specialists Yet in the end a few well documented events remain unexplained *Minerals, Lands, and Geology for the Common Defence and General Welfare* Mary C.
