## **Of The American West 1st Edition:**

**Dark Tourism in the American West** Jennifer Dawes, 2019-08-12 This edited collection expands scholarly and popular conversations about dark tourism in the American West The phenomenon of dark tourism traveling to sites of death suffering and disaster for entertainment or educational purposes has been described and on occasion criticized for transforming misfortune and catastrophe into commodity The impulse however continues particularly in the American West a liminal and contested space that resonates with stories of tragedy violent conflict and disaster Contributions here specifically examine the mediation and shaping of these spaces into touristic destinations The essays examine Western sites of massacre and battle such as Sand Creek Massacre National Historic Site and the Waco Siege sites of imprisonment such as Japanese American internment camps and Alcatraz Island areas devastated by ecological disaster such as Martin's Cove and the Salton Sea and unmediated sites those sites left to the touristic imagination with no interpretation of what occurred there such as the Bennet Arcane camp

**Jewish Identities in the American West** Ellen Eisenberg, 2022-11-24 With essays that cover the period from the mid nineteenth century to the present this volume presents a collective portrait of change over time that allows us to view the shifting nature of Jewish identity in the U S West as well as the evolving frameworks for racial construction

**A Literary History of the American West** Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance

*Crisscrossing Borders in Literature of the American West* R. Dyck, C. Reutter, 2009-03-02 In one consequential volume *Crisscrossing Borders in Literature of the American West* presents the cross section of a fast changing and greatly expanded field Through interdisciplinary essays this volume on the post national West challenges the idea of a unified national story sustained by strategic exclusions Contributors analyze the economic and environmental exploitation depicted in working class Western literature emphasize the transnational by approaching both the North South and cross Atlantic axes grapple with the role of Mormons and dissect the new masculinity of Silicon Gunslingers Each essay successfully and compellingly models a new and fruitful way of engaging the West

**Untaming the Frontier in Anthropology, Archaeology, and History** Bradley J. Parker, Lars Rodseth, 2005-10 Despite a half century of attempts by social scientists to compare frontiers around the world the study of these regions is still closely associated with the nineteenth century American West and the work of Frederick Jackson Turner As a result the very concept of the frontier is bound up in Victorian notions of manifest destiny and rugged individualism The frontier it would seem has been tamed This book seeks to open a new debate about the processes of frontier history in a variety of cultural contexts untaming the frontier as an analytic concept and releasing it in a

range of unfamiliar settings Drawing on examples from over four millennia it shows that throughout history societies have been formed and transformed in relation to their frontiers and that no one historical case represents the normal or typical frontier pattern The contributors historians anthropologists and archaeologists present numerous examples of the frontier as a shifting zone of innovation and recombination through which cultural materials from many sources have been unpredictably channeled and transformed At the same time they reveal recurring processes of frontier history that enable world historical comparison the emergence of the frontier in relation to a core area the mutually structuring interactions between frontier and core and the development of social exchange merger or conflict between previously separate populations brought together on the frontier Any frontier situation has many dimensions and each of the chapters highlights one or more of these from the physical and ideological aspects of Egypt's Nubian frontier to the military and cultural components of Inka outposts in Bolivia to the shifting agrarian religious and political boundaries in Bengal They explore cases in which the centripetal forces at work in frontier zones have resulted in cultural hybridization or creolization and in some instances show how satellite settlements on the frontiers of core polities themselves develop into new core polities Each of the chapters suggests that frontiers are shaped in critical ways by topography climate vegetation and the availability of water and other strategic resources and most also consider cases of population shifts within or through a frontier zone As these studies reveal transnationalism in today's world can best be understood as an extension of frontier processes that have developed over thousands of years This book's interdisciplinary perspective challenges readers to look beyond their own fields of interest to reconsider the true nature and meaning of frontiers

*Masculinities in Literature of the American West*

Lydia R. Cooper, 2016-11-15 The Western genre provides the most widely recognized iconic images of masculinity in the United States gun slinging laconic white male heroes who emphasize individualism violence and an idiosyncratic form of justice This idealized masculinity has been fused with ideas of national identity and character *Masculinities in Literature of the American West* examines how contemporary literary Westerns push back against the coded image of the Western hero exposing pervasive anxieties about what it means to act like a man Contemporary Westerns critique assumptions about innate connections between power masculinity and American character that influence public rhetoric even in the late 20th and early 21st centuries These novels struggle with the monumental challenge of all Westerns the challenge of being human in a place where being a man is so strictly coded so unachievable so complicit in atrocity and so desirable that it is worth dying for worth killing for or perhaps worth nothing at all

*Never Caught Twice* Matthew S. Lockett, 2020-11-2021

Nebraska Book Award *Never Caught Twice* presents the untold history of horse raiding and stealing on the Great Plains of western Nebraska By investigating horse stealing by and from four Plains groups American Indians the U S Army ranchers and cowboys and farmers Matthew S Lockett clarifies a widely misunderstood crime in Western mythology and shows that horse stealing transformed plains culture and settlement in fundamental and surprising ways From Lakota and Cheyenne

horse raids to rustling gangs in the Sandhills horse theft was widespread and devastating across the region The horse s critical importance in both Native and white societies meant that horse stealing destabilized communities and jeopardized the peace throughout the plains instigating massacres and murders and causing people to act furiously in defense of their most expensive most important and most beloved property But as it became increasingly clear that no one legal or military institution could fully control it would be victims desperately sought a solution that would spare their farms and families from the calamitous loss of a horse For some that solution was violence Never Caught Twice shows how the story of horse stealing across western Nebraska and the Great Plains was in many ways the story of the old West itself
