Of Common Dread Vol 1:

The Eclectic review. vol. 1-New [8th] ,1840 The Political Writings of George Washington: Volume 1, 1754-1788
George Washington,2023-08-31 The Political Writings of George Washington includes Washington's enduring writings on politics, prudence and statesmanship in two volumes. It is the only complete collection of his political thought which historically has received less attention than the writings of other leading founders such as Thomas Jefferson, James Madison, John Adams and Alexander Hamilton. Covering his life of public service from his young manhood when he fought in the French and Indian Wars through his time as commander in chief of the revolutionary army, his two terms as America's first president and his brief periods of retirement during which he followed and commented on American politics astutely, the volumes also include first-hand accounts of Washington's death and reflections on his legacy by those who knew or reflected deeply on his significance. The result is a more thorough understanding of Washington's political thought and the American founding.
