

An aerial photograph of a tropical island. The island is covered in dense green vegetation. A small, narrow strip of land extends into a bright turquoise lagoon. A small white boat is visible in the water. In the background, there are more islands and a range of mountains under a clear blue sky.

Manifest Manhood and the Antebellum American Empire Amy S. Greenberg, 2005-06-06 This book documents the potency of Manifest destiny in the antebellum era

California Dreams and American Contradictions Monique McDade, 2023-03 In California Dreams and American Contradictions Monique McDade examines a group of diverse women writers of the American West from an intersectional standpoint to understand the progressive narratives the West tells about itself

American Trinity Larry Len Peterson, 2017-09-11 American Trinity is for everyone who loves the American West and wants to learn more about the good the bad and the ugly It is a sprawling story with a scholarly approach in method but accessible in manner In this innovative examination Dr Larry Len Peterson explores the origins development and consequences of hatred and racism from the time modern humans left Africa 100 000 years ago to the forced placement of Indian children on off reservation schools far from home in the late 1800s Along the way dozens of notable individuals and cultures are profiled Many historical events turned on the lives of legendary Americans like the Father of the West Thomas Jefferson and the Son of the West George Armstrong Custer two strange companions who shared an unshakable sense of their own skills as their interpretation of truths motivated them in the winning of the West Dr Peterson reveals how anti Indian sentiments were always only obliquely about them They were victims but not the cause The Indian was a symbol not a real person The politics of hate and racism directed toward them was also experienced in prior centuries by Jews enslaved Africans and other Christians Hatred and racism when taken into the public domain are singularly difficult to justify which is why Europeans and Americans have always sought vindication from the highest sources of authority in their cultures In the Middle Ages it was religion supplemented later by the philosophy of the Enlightenment In nineteenth century Europe and America religion and philosophy were joined by science and medicine to support Manifest Destiny scientific racism and social Darwinism all of which had profound consequences on Native Americans and the Spirit of the West Presenting research in anthropology archaeology biology history law medicine religion philosophy and psychology Dr Peterson provides the latest observations that delineate why the Native American's life was destroyed American Trinity is a stunning portrait a view at once unique panoramic and intimate It is a fascinating book that will make you think about the differences between belief and knowledge about the self skepticism of science and medicine and about what aspects of the world we take on faith

Alfred Hitchcock's America Murray Pomerance, 2013-04-12 With a sharp eye for social detail and the pressures of class inequality Alfred Hitchcock brought to the American scene a perspicacity and analytical shrewdness unparalleled in American cinema Murray Pomerance works from a basis in cultural analysis and a detailed knowledge of Alfred Hitchcock's films and production techniques to explore how America of the 1940s 1950s and 1960s is revealed and critically commented upon in Hitchcock's work Alfred Hitchcock's America is full of stunning details that bring new light to Hitchcock's method and works The American spirit of place is seen here in light of the titanic American personality American values in a

consumer age social class and American social form and the characteristic American marriage The book's analysis ranges across a wide array of films from *Rebecca* to *Family Plot* and examines in depth the location sequences characterological types and complex social expectations that riddled American society while Hitchcock thrived there **The Devil's Land** Ahuronyeze Ab Sunday Ahuronyeze Abakwue, Sunday Ahuronyeze Abakwue, 2010-08 When Satan took over America he created a new cult of civilization For example he built the flying cities on earth and he deployed them around the weak world He changes the Oceans and the major rivers of the world into mere ponds all to serve his diabolic objectives He twisted the mind of the peoples nation and even the mind of civilization And at a point the diabolic excesses began to offend God And God began to react God began to fight back He sent down to the earth a spy angel for each of the U S states to monitor the evil deeds of the devil And then God got even bolder all to Satanic total displeasure For example when God caused the great national idol Lady of Liberty to be destroyed Satan fought back He speedily re built it turning the new idol of the nation into a walking robotic lady with the exceptional features of the most beautiful lady He declared a universal war on everything Divine And as the war began there was a great bloodletting Satan defeated God's angels who were sent down to fight him one best time at a season Satan was able to win a Great God in a holy war And having won a great victory at a very huge loss he re built his kingdom with America as his Universal Capital And to prevent God from another invasion he stationed all his terribly armed flying cities ready to fight all in the open sky **American Small-Town Fiction, 1940-1960** Nathanael T. Booth, 2019-01-29 In literature and popular culture small town America is often idealized as distilling the national spirit Does the myth of the small town conceal deep seated reactionary tendencies or does it contain the basis of a national re imagining During the period between 1940 and 1960 America underwent a great shift in self mythologizing that can be charted through representations of small towns Authors like Henry Bellamann and Grace Metalious continued the tradition of Sherwood Anderson in showing the small town by extension America itself profoundly warping the souls of its citizens Meanwhile Ray Bradbury Toshio Mori and Ross Lockridge Jr sought to identify the small town's potential for growth away from the shadows cast by World War II toward a more inclusive democratic future Examined together these works are key to understanding how mid 20th century America refashioned itself in light of a new postwar order and how the literary small town both obscures and reveals contradictions at the heart of the American experience **The Quest** Mircea Eliade, 1984-05-15 In *The Quest* Mircea Eliade stresses the cultural function that a study of the history of religions can play in a secularized society He writes for the intelligent general reader in the hope that what he calls a new humanism will be engendered by a confrontation of modern Western man with unknown or less familiar worlds of meaning Each of these essays contains insights which will be fruitful and challenging for professional students of religion but at the same time they all retain the kind of cultural relevance and clarity of style which makes them accessible to anyone seriously concerned with man and his religious possibilities Joseph M Kitagawa Religious Education *Black Enterprise*, 1982-11 BLACK ENTERPRISE is the

Rodgers,2020-03-04 How the rise of machines changed the way we think about work and about success The phrase a strong work ethic conjures images of hard driving employees working diligently for long hours But where did this ideal come from and how has it been buffeted by changes in work itself While seemingly rooted in America s Puritan heritage perceptions of work ethic have actually undergone multiple transformations over the centuries And few eras saw a more radical shift than the American industrial age Daniel T Rodgers masterfully explores the ways in which the eclipse of small scale workshops by mechanized production and mass consumption triggered far reaching shifts in perceptions of labor leisure and personal success He also shows how the new work culture permeated society including literature politics the emerging feminist movement and the labor movement A staple of courses in the history of American labor and industrial society Rodgers s sharp analysis is as relevant as ever as twenty first century workers face another shift brought about by technology The Work Ethic in Industrial America 1850 1920 is a classic with critical relevance in today s volatile economic times A Call to Stand Georgette Loschiavo,2009-10 Americans have been weathering this storm but a sequel is inevitable A nightmarish storm is hovering over Us right now and the dark clouds are

threatening almost every aspect of Our lives In the wake of every crisis there comes a moment when a lightening bolt of truth hits The sting goes deep and anger arises when Our pretentious picture of Ourselves is disturbed but the pain of facing past mistakes will be worth it if it wakes Us up to remember Who We are We must learn what it takes to be good stewards of the legacy left to Us We are facing a tempestuous point in time but built into every storm is the chance to learn and grow We have to know Who We are and what is required to keep the dream alive Change must come but We must be the change The evolution of both democracy and Humankind requires education and cooperation Nothing more and nothing less The next step is a matter of choice Our choice It is time to learn from history and answer the call to take a stand California and Hawai'i Bound Henry Knight, Henry Knight Lozano, 2021-08 Henry Knight Lozano explores how U S boosters writers politicians and settlers promoted and imagined California and Hawai i as connected places and how this relationship reveals the fraught constructions of an Americanized Pacific West from the 1840s to the 1950s **Idaho** Rebecca Stefoff, 2009 Idaho is a state of astonishing natural beauty with a complex identity Geography divides Idaho into two distinct regions and some Idahoans find it easier to identify with their neighbors in earby states than with the rest of their own state Divided and ruggedly independent as they are however Idahoans are united in the proud affection they feel for their state They are torn between wanting to sing its praises and wanting to keep its secrets to themselves Book jacket **The Pineapple from Domestication to Commodification** Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple s discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation The Pineapple from Domestication to Commodification is a wide ranging interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption This connects the global and local at the heart of contemporary debates about the nature and origins of our food It will have cross disciplinary appeal for scholars of politics economics history plant sciences food and material culture as well as for broader audiences interested in food gardening the environment and visual arts **Over the Rainbow** Paul Nathanson, 1991-01-01 Over the Rainbow shows how Dorothy s passage from Kansas to Oz and back again recapitulates paradigmatic stories of both America and Christianity Defining human identity on three symbolic levels individual collective and cosmic Nathanson shows that The Wizard of Oz has come to be a secular myth **America in Italy** Axel Körner, 2017-06-13 America in Italy examines the influence of the American political experience on the imagination of Italian political thinkers between the late eighteenth century and the unification of Italy in the 1860s Axel K rner shows how Italian political thought was shaped by debates about the American Revolution and the U S Constitution but he focuses on the important distinction that while European interest in developments across the

Atlantic was keen this attention was not blind admiration Rather America became a sounding board for the critical assessment of societal changes at home Many Italians did not think the United States had lessons to teach them and often concluded that life across the Atlantic was not just different but in many respects also objectionable In America utopia and dystopia seemed to live side by side and Italian references to the United States were frequently in support of progressive or reactionary causes Political thinkers including Cesare Balbo Carlo Cattaneo Giuseppe Mazzini and Antonio Rosmini used the United States to shed light on the course of their nation s political resurgence Concepts from Montesquieu Rousseau and Vico served to evaluate what Italians discovered about America Ideas about American domestic manners were reflected and conveyed through works of ballet literature opera and satire Transcending boundaries between intellectual and cultural history America in Italy is the first book length examination of the influence of America s political formation on modern Italian political thought

In the Vernacular, 2009-04 Collecting important works from one of Australia s leading scholars of media culture and policy this study brings sharper focus upon both historical and industrial contexts Engaging with the global debate on multiethnic societies by focusing on creativity at the margins this survey argues that industrial and social trends in media communications and culture are outstripping the academic frameworks that were erected to deal with them

Sanctified Landscape David Schuyler, 2012-04-06 The Hudson River Valley was the first iconic American landscape Beginning as early as the 1820s artists and writers found new ways of thinking about the human relationship with the natural world along the Hudson Here amid the most dramatic river and mountain scenery in the eastern United States Washington Irving and James Fenimore Cooper created a distinctly American literature grounded in folklore and history that contributed to the emergence of a sense of place in the valley Painters led by Thomas Cole founded the Hudson River School widely recognized as the first truly national style of art As the century advanced and as landscape and history became increasingly intertwined in the national consciousness an aesthetic identity took shape in the region through literature art memory and folklore even gardens and domestic architecture In Sanctified Landscape David Schuyler recounts this story of America s idealization of the Hudson Valley during the nineteenth and early twentieth centuries Schuyler s story unfolds during a time of great change in American history At the very moment when artists and writers were exploring the aesthetic potential of the Hudson Valley the transportation revolution and the rise of industrial capitalism were transforming the region The first generation of American tourists traveled from New York City to Cozzens Hotel and the Catskill Mountain House in search of the picturesque Those who could afford to live some distance from jobs in the city built suburban homes or country estates Given these momentous changes it is not surprising that historic preservation emerged in the Hudson Valley the first building in the United States preserved for its historic significance is Washington s Headquarters in Newburgh Schuyler also finds the seeds of the modern environmental movement in the transformation of the Hudson Valley landscape Richly illustrated and compellingly written Sanctified Landscape makes for rewarding reading Schuyler expertly ties local history to

national developments revealing why the Hudson River Valley was so important to nineteenth century Americans and why it is still beloved today
