Pakistan's Tactical Nuclear Weapons Inderjit Panjra,2018-01-01 Amidst many developments in the constantly evolving Indo Pak conflict paradigm the latest and perhaps the most intriguing has been the induction of Tactical Nuclear Weapons TNWs by Pakistan While nuclear sabre rattling is not new to Pakistan s strategy this time around there seems to be a strong pitch among security analysts to project these as the proverbial Brahmastra in its possession foreclosing any sort of military retaliatory strike by India This is significant at a time when sporadic Pak sponsored terror attacks on Indian soil continue unabated For the Indian security analysts this raises some pertinent questions Is the threat of TNWs credible enough to deter India from launching a suitable military response to a Pakistan supported terror attack Does induction of TNWs by Pakistan materially alter the Indo Pak nuclear balance and consequently the direction any future conflict may assume What are the response options for India to retain restore the nuclear as well as overall security balance This book is an endeavour to find answers to all these In the process the author attempts to explore how the two protagonists view nuclear deterrence what is the relevance of nuclear weapons for both of

them how are the fundamental drivers of the ongoing conflict and the ever changing dynamics and influences in the region affecting it Using these parameters and the technical capabilities of TNWs believed to be held by Pakistan the author constructs five possible scenarios for the foreseeable future The outcome is interesting as it answers the fundamental question are Pakistan s TNWs indeed the game changer they are being touted as or are we giving the devil more than his due

India's Nuclear Debate Priyanjali Malik,2014-03-21 Making the right wing Bharatiya Janata Party s nuclear tests in 1998 its starting point this book examines how opinion amongst India s attentive public shifted from supporting nuclear abstinence to accepting and even feeling a need for a more assertive policy by examining the complexities of the debate in India on nuclear policy in the 1990s The study seeks to account for the shift in opinion by looking at the parallel processes of how nuclear policy became an important part of the public discourse in India and what it came to symbolise for the country s intelligentsia during this decade It argues that the pressure on New Delhi in the early 1990s to fall in line with the non proliferation regime magnified by India s declining global influence at the time caused the issue to cease being one of defence making it a focus of nationalist pride instead The country s nuclear programme thus emerged as a test of its ability to withstand external compulsions guaranteeing not so much the sanctity of its borders as a certain political idea of it that of a modern scientific and most importantly sovereign state able to defend its policies and set its goals

South Asian Security and International Nuclear Order Mario Esteban Carranza, 2016-04-01 Mario

Carranza studies in depth the linkages between Indo Pakistani nuclear relations and the International Nuclear Order. He critically analyzes the de facto recognition by the United States of India and Pakistan as nuclear weapon states and looks at the impact of that recognition on the International Nuclear Order and its linchpin the Nuclear Non Proliferation Treaty NPT. The book provides a critical analysis of the New International Nuclear Order sponsored by the United States after the September 11 terrorist attacks and the place of India and Pakistan in that order. The author considers the survival of India and Pakistan in relation to a strategy of nuclear deterrence and debates the possibility of establishing a robust nuclear arms control regime in South Asia as part of a broader effort to revive global nuclear arms control and disarmament negotiations.

India's Nuclear Diplomacy After Pokhran II Ajai K. Rai, 2009. India's emergence as a confident and responsible nuclear nation has required careful crafting of its nuclear policies. After Pokhran II and the Chagai Hills tests, the South Asian security architecture and with it the whole matrix of nuclear diplomacy had undergone a paradigmatic shift. India's nuclear diplomacy too acquired a new prominence after these events. It was important for India to improve its bilateral relations with major powers for strategic reasons. At the same time it needed to address the challenge of its burgeoning energy needs at home. India's Nuclear Diplomacy After Pokhran II presents an analytical perspective based on a narrative exposition of the facts and issues involved in international nuclear gamesmanship, taking every care to maintain objectivity and balance. Flowing from years of intensive research and reflection, this book breaks new ground by focusing on India's nuclear diplomacy with the major global and regional powers and the rationale of its stand vis-à-vis the NPT and CTBT. To reach out to the general reader in addition to scholars of the subject, this book unravels the intricacies and technicalities of the post Pokhran II diplomacy in lucid and comprehensible phraseology. *India's Sentinel: Select Writings of Air Commodore Jasjit Singh* AVSM, VrC, VM (Retd) Dr Manpreet Sethi, Dr Shalini Chawla, 2014-07-15. Air Commodore Jasjit Singh was one of India's foremost strategic analysts. The only constant for him in over three decades of research, analyses and writing was the centrality of national interest. Indeed, the man never let the nation down, whether as an air warrior or a strategist, ever ready to voice his views irrespective of how the wind was blowing and always remaining practical in approach. Ever an optimist, he believed that India would inevitably rise to power by the sheer size of its economy and human resource potential. A greater concern for him, however, was the need to sensitize his compatriots to the national security challenges that would arise as the country rose and to equip them with the capability to optimally address these. He did so through his writings and talks. This book is a modest compilation of his select writings on two specific issues: nuclear strategy and Pakistan, since he considered these as critical amongst India's many security challenges. Of course, the range of Jasjit Singh's writings and the expanse of his knowledge is immense and beyond capture in one book. But this is a small effort in the direction of spreading his message, ideas to the current and future generation of scholars and policy makers. Hopefully, it will encourage students of national security to look for more of his writings beyond the few that we have been able to carry in this volume. *Pakistan's Nuclear*

Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India's nuclear weapons tests Pakistan tested six nuclear weapons. Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence. This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed strategic environment. After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test. It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study. The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence. The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option. Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence. Conceptually providing a deeper understanding of Pakistan's post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels. It will be a useful contribution in the field of Nuclear Policy Security Studies Asian Politics Proliferation Non Proliferation Studies and Peace Studies. This book will be of interest to policy makers scholars and students of nuclear policy nuclear proliferation and arms control related research. UGC-NET/JRF/SET Political Science (Papers II and III) S Chand Experts, The book is an effective resource for the preparation of Political Science papers of UGC NET JRF SET exams.
