Rhetorical Aspects of Discourses in Present-Day Society Lotte Dam, Lise-Lotte Holmgreen, Jeanne Strunck, 2009-05-27 Since antiquity the notion of rhetoric has been associated with Aristotle Cicero and Quintilian Their theories are central to the understanding that on the one hand rhetoric can be used for persuading and convincing an audience and on the other for becoming an eloquent speaker Based on this understanding the study of rhetoric was for many years regarded by scholars as a meaningless enterprise as it was perceived as a study of linguistic ornamentation However in the beginning of the twentieth century scholars regained an interest in the study of rhetoric in recognition of rhetorical skills

being important for communication in modern society Like speakers in public life e g politicians who had always acknowledged the role of rhetoric all sorts of communicators mediators and scholars became interested in rhetoric as a practical tool for building up texts meant for the public sphere as well as an analytical tool for the critique of public argumentation This led to the development of new theories from New Rhetoric over Rhetorical Criticism to theories of genre and discourse reflecting the view that rhetoric must be understood and used against the social and cultural framework in which it is embedded The contributions of this book reflect this multi faceted approach to rhetoric discourse and genre through their focus upon and analysis of different institutionalised discourses Thus within the three sections of political journalistic and organisational discourse the articles discuss various discourse types and their rhetorical features contributing to the understanding of rhetoric and discourse having significant influence on human action and interaction in society

Islamic Doctrines and Political Liberalism Gozde Hussain,2024-11-13 This book delves into the compatibility of Islam with liberal values engaging in a comparative analysis of Islamic moral language and John Rawls s liberal democratic ideas Rawls a prominent modern liberal political philosopher posits that diverse moral and religious doctrines in a pluralistic society should align with the principles of a liberal democratic political culture The author shares Rawls s assumptions and maps out a spectrum of Islamic orthodoxy positions to assess the plausibility of reconciling Islamic doctrines with a liberal political order While acknowledging that such compatibility is not the mainstream outlook the book argues that it s feasible through reasonable interpretations of Islamic sources The central question addressed is the realism of observant Muslims endorsing a liberal democratic state from within their doctrinal tradition By examining a range of Islamic orthodoxy positions the book demonstrates that Muslims can theoretically find Islamic reasons rooted in acceptable interpretations of divine sources to

justify their commitment to a liberal state Furthermore it provides moral reasons and strategies for the liberal state to address incompatible Islamic doctrines ensuring Muslims can maintain religious practices without an Islamic political authority This theoretical framework offers insights for future empirical and theoretical studies on Muslims navigating pluralistic liberal societies making it a vital contribution to the discourse on Islam and liberalism The American Encyclopaedic Dictionary ,1896 **Heinemann English Dictionary** Martin Manser,2001 This dictionary uses clear straightforward definitions making it easy to use by students of all abilities It explains language and grammar points clearly to develop students skills **The American Heritage Dictionary of Idioms, Second Edition** Christine Ammer,2013 Fifteen years after the publication of the first edition of the American Heritage R Dictionary of Idioms author Christine Ammer has extensively updated and expanded her original text making over 1500 revisions and adding hundreds of new entries such as couch potato elephant in the room senior moment and think outside the box to keep up with the rapidly changing English language **EXPLORING LINGUISTIC LANDSCAPES.
