Blk Streets Of Oakland:

Street Players Kinohi Nishikawa, 2019-01-11 The uncontested center of the black pulp fiction universe for more than four decades was the Los Angeles publisher Holloway House From the late 1960s until it closed in 2008 Holloway House specialized in cheap paperbacks with page turning narratives featuring black protagonists in crime stories conspiracy thrillers prison novels and Westerns From Iceberg Slim s Pimp to Donald Goines s Never Die Alone the thread that tied all of these books together and made them distinct from the majority of American pulp was an unfailing veneration of black masculinity Zeroing in on Holloway House Street Players explores how this world of black pulp fiction was produced received and recreated over time and across different communities of readers Kinohi Nishikawa contends that black pulp fiction was built on white readers fears of the feminization of society and the appeal of black masculinity as a way to counter it In essence it was the original form of blaxploitation a strategy of mass marketing race to suit the reactionary fantasies of a white audience But while chauvinism and misogyny remained troubling yet constitutive aspects of this literature from 1973 onward Holloway House moved away from publishing sleaze for a white audience to publishing solely for black readers The standard account of this literary phenomenon is based almost entirely on where this literature ended up in the hands of black male working class readers When it closed Holloway House was synonymous with genre fiction written by black authors for black readers a field of cultural production that Nishikawa terms the black literary underground But as Street Players demonstrates this cultural authenticity had to be created promoted and in some cases made up and there is a story of exploitation at the heart of black pulp fiction s origins that cannot be ignored *An Architectural Guidebook to San Francisco and the Bay Area* Susan Dinkelspiel Cerny, 2007 An Architectural Guidebook to San Francisco and the Bay Area is the definitive guide to the history and architecture of the nine San Francisco Bay Area counties This compendium has been written and photographed by Susan Cerny and twelve Bay Area experts and provides a historic record of how the area developed to become what it is today and discusses transportation systems city and suburban landscape plans public parkland California history and economic social and political influences Included are San Francisco Victorians civic buildings churches parks grand Period Revivals and rustic Arts and Crafts homes as well as significant vernacular buildings in less publicized neighborhoods and towns Features include Buildings by all major San Francisco Bay Area architects from the 1860s to the present More than 2 000 entries Architectural landmarks in every Bay Area county arranged by chapter San Francisco San Mateo Santa Clara Alameda Contra Costa Solano Napa Sonoma and Marin More than 100 cities towns and neighborhoods A history of architectural styles popular in the Bay Area More than 20 000 copies sold of our previous architecture guide to the Bay Area **Black on the Block** Mary Pattillo, 2010-04-02 In Black on the Block Mary Pattillo a Newsweek Woman of the 21st Century uses the historic rise alarming fall and equally dramatic renewal of Chicago s North Kenwood Oakland neighborhood to explore the politics of race and class in contemporary urban America There was a time

when North Kenwood Oakland was plagued by gangs drugs violence and the font of poverty from which they sprang But in the late 1980s activists rose up to tackle the social problems that had plagued the area for decades Black on the Block tells the remarkable story of how these residents laid the groundwork for a revitalized and self consciously black neighborhood that continues to flourish today But theirs is not a tale of easy consensus and political unity and here Pattillo teases out the divergent class interests that have come to define black communities like North Kenwood Oakland She explores the often heated battles between haves and have nots home owners and apartment dwellers and newcomers and old timers as they clash over the social implications of gentrification Along the way Pattillo highlights the conflicted but crucial role that middle class blacks play in transforming such districts as they negotiate between established centers of white economic and political power and the needs of their less fortunate black neighbors A century from now when today s sociologists and journalists are dust and their books are too those who want to understand what the hell happened to Chicago will be finding the answer in this one Chicago Reader To see how diversity creates strange and sometimes awkward bedfellows turn to Mary Pattillo s Black on the Block Boston Globe
