Blood Steel The Rise Of The Hou Krupp:

Blood and Steel - The Rise of the House of Krupp Bernhard Menne, 2013-05-31 The Krupp family are a prominent German dynasty from Essen and are famous for their steel production and the manufacture of ammunitions and armaments This book provides the first genuine critical history of the company whose guns made the background for a half century of mad armament policy made possible by Krupp s new patron Adolf Hitler The House of Krupp s true history had been concealed by thousands of printed pages containing cleverly dished up data which the author has pushed aside to reveal a true historical investigative account Trials of War Criminals Before the Nuernberg Military Tribunals Under Control Council Law No. 10, Nuremberg, October 1946-April, 1949: Case 10: U.S. v. Krupp (Krupp case) ,1949 **Trials of War Criminals Before the Nuremberg Military Tribunals Under Control Council Law No. 10, Nuernberg, October 1946-April 1949** International Military Tribunal, 1950 **The Entourage of Kaiser Wilhelm II, 1888-1918** Isabel V. Hull, 2004-07-08 This volume analyzes the entourage of the last German Kaiser to explain the peculiar decisions taken by Germany s leaders from 1888 to 1918 **Shaw and History** Gale K. Larson, 1999 This special issue of Shaw offers ten articles that focus on the theme of Shaw and History That focus illuminates Shaw s concept of history as art and its uses for dramatic purposes It is a focus that is broadly applied to the historical perspective Views range from Shaw s uses of historical sources in the Shavianizing of history his uses of historical geographical and political places and events in his work to views that place selected Shavian works within a historical context Stanley Weintraub discusses Shaw s references to Cetewayo Zulu chieftain in Cashel Byron s Profession as the first incorporation of a contemporary historical figure into his work John Allett explores the liberal socialist and radical feminist views of prostitution in nineteenth century England and demonstrates how those political views are developed within the unfolding action of Mrs Warren s Profession Sidney P Albert studies the Utopian movement The Garden City to determine the extent to which that movement influenced Shaw s conception of Perivale St Andres in Major Barbara He also narrates his personal attempt to identify the Ballycorus smelting works and its surroundings as well as the campanile or Folly at Faringdon as sites that provided the scenic sources for Perivale St Andres in Major Barbara Gale K Larson has edited a partially unpublished Shavian manuscript that addresses Shaw s relationship with Frank Harris and among other matters sets the historical record right as to who deserves the credit for attributing the identity of the Dark Lady of the Sonnets to Mary Fitton He also examines the historical sources that influenced Shaw s views on Charles II the Merry Monarch in In Good King Charles s Golden Days and demonstrates Shaw s reclamation of yet another historical figure from the traditional historians David Gunby examines the first night performance of O Flaherty V C for purposes of setting the historical record straight as to the facts of that production Wendi Chen presents the stage history of the production of Mrs Warren s Profession in China during the early 1920s and argues its central role in shaping modern Chinese drama Rodelle Weintraub assesses Too True to Be Good as a dream play within the context of the nightmarish times

of World War I Michael M O Hara surveys the Federal Theatre s productions of Androcles and the Lion in the 1930s to reveal the political and religious repressions that those productions underscore Shaw 19 also includes three reviews of recent additions to Shavian scholarship as well as John R Pfeiffer s Continuing Checklist of Shaviana

German History in Marxist Perspective Andreas Dorpalen, 1985 Andreas Dorpalen s German History in Marxist Perspective The East German Approach is the most comprehensive study of historical scholarship in the former German Democratic Republic to have appeared in any language His purpose is to analyze the way in which GDR historians guided by the theoretical presuppositions of Marxist Leninist ideology have interpreted the German national past from the early Middle Ages to the present To accomplish his task Dorpalen examined the mass of writing produced by historians of the GDR from the time the historical profession was reestablished in 1945 He thereby provides readers with access to historical literature that up to now has been largely ignored by English speaking scholars

The Betrayal Kim Christian Priemel, 2018-05-17 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany s divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler s rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials The Betrayal thus also explores how history underpins transitional trials as we encounter them in today s courtrooms from Arusha to The Hague

Military Enterprise and Technological Change Merritt Roe Smith, 1985 In this book historians of technology bring their special expertise to probing the influence of the military on technological development over a broad range of history and in a variety of cases

Practicing Democracy Margaret Lavinia Anderson, 2021-04-13 What happens when manhood suffrage a radically egalitarian institution gets introduced into a deeply hierarchical society In her sweeping history of Imperial Germany s electoral culture Anderson shows how the sudden

opportunity to practice democracy in 1867 opened up a free space in the land of Kaisers generals and Junkers Originally designed to make voters susceptible to manipulation by the authorities the suffrage s unintended consequence was to enmesh its participants in ever more democratic procedures and practices The result was the growth of an increasingly democratic culture in the decades before 1914 Explicit comparisons with Britain France and America give us a vivid picture of the coercive pressures from employers clergy and communities that German voters faced but also of the legalistic culture that shielded them from the fraud bribery and violence so characteristic of other early franchise regimes We emerge with a new sense that Germans were in no way less modern in the practice of democratic politics Anderson in fact argues convincingly against the widely accepted notion that it was pre war Germany s lack of democratic values and experience that ultimately led to Weimar s failure and the Third Reich Practicing Democracy is a surprising reinterpretation of nineteenth and early twentieth century Germany and will engage historians concerned with the question of Germany s special path to modernity sociologists interested in obedience popular mobilization and civil society political scientists debating the relative role of institutions versus culture in the transition to democracy By showing how political activity shaped and was shaped by the experiences of ordinary men and women it conveys the excitement of democratic politics **Tooling for War** Elwood L. White,1994 Special Bibliography Series ,1957 Catalog of Copyright Entries. New Series Library of Congress. Copyright Office,1938 **The Nation** ,1938-07 *The Emperors* Gareth Russell,2014-08-15 The fascinating story of the Austrian German and Russian imperial families during the four years of the First World War and the political and personal struggles that brought about their ruin **Encyclopedia of the United Nations and International Agreements: G to M** Edmund Jan Osmańczyk,2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations The book demystifies the complex workings of the world s most important and influential international body **Christian Register and Boston Observer...** ,1938 Covert German Rearmament, 1919-1939 Barton Whaley,1984 *Arming the Sultan* Naci Yorulmaz,2021-04-22 International Arms Trade has always been a powerful and multi functional constituent of world politics and international diplomacy Sending military advisors abroad and promoting arms sales each legitimizing and supporting the other became indispensable tools of alliance making starting from the eve of the First World War until today To the German Empire as a relative latecomer to imperialistic rivalry in the struggle for colonies around the world in the late 19th century arms exports performed a decisive service in stimulating and strengthening the German military based expansionist economic foreign policy and provided effective tools to create new alliances around the globe Therefore from the outset the German armament firms marketing and sales operations to the global arms market but especially to the Ottoman Empire under the rule of Sultan Abd lhamid II were openly and strongly supported by Kaiser Wilhelm II Bismarck and the other decision makers in German Foreign Policy Based on extensive multinational archival research in Germany Turkey Britain and the United States Arming the Sultan explores the decisive

impact of arms exports on the formation and stimulation of Germany's expansionist foreign economic policy towards the Ottoman Empire Making an important contribution to current scholarship on the political economy of the international arms trade Yorulmaz's innovative book *Arming the Sultan* reveals that arms exports specifically under the shadow of personal diplomacy proved to be an indispensable and integral part of Germany's foreign economic policy during the period leading up to WW1 Catalogue of Copyright Entries Library of Congress.
