Blood Game:

Blood Game Carla Simpson, A priceless piece of artwork lost in World War II A car accident that is no accident And a bloodstained photograph that could expose not only a billion dollar smuggling operation but its links to terrorism and the entire world of cybercrime Connecting all of these disparate threads is the death of bestselling author and war correspondent Catherine Bennet Ross Upon Cate s death Kris McKenna Cate s editor and close friend heads to London to retrieve what she can of Cate s final manuscript one detailing the life of Cate s father wartime photographer Paul Bennett There she is met by James Morgan the son of Cate s long time friends He s on medical leave from the military working his way through the scars seen and unseen that he received in the Middle East trying to figure out what s left of himself They head to Scotland to visit a cottage Cate purchased when she retired only to find it has been ransacked and Cate s manuscript has disappeared along with all her files What seems to the local police to be a simple robbery is concluded by the French authorities to have been something far more sinister Cate was deliberately forced off the road near Calais and this is about something far bigger than a stolen manuscript Now Kris and James are faced with a dangerous race from rural Scotland to the underbelly of Paris where they ll pivot to journey across the French countryside wading through its secrets from the past all while a killer is determined to stop them at all costs *Blood Game* Ed Gorman,2014-04-01

John Joe KING,** When Tom Hansen invents the quantum chip he is surprised to discover that three years later that the military had taken his technology and built the world's first quantum computer called Ava Advanced Virtual Algorithm The only thing missing enabling Ava to reach her full potential is the programming codes Tom has hidden away in his mind and now they need him alive to finish the project Kidnapped and trapped deep below ground he soon realises that his life and his families is in danger and must now find a way to finish what he started Inspector George Billings is woken early from yet another drinking binge and with another hangover is informed of the multiple killings the night before As the pieces start coming together and camera footage that reveals something so fantastic he never thought possible The real reasons why these seemingly innocent people have been murdered starts coming to light With the military trying to cover everything up he is on a mission to try to find the truth before it all gets lost buried deep beneath a secret military underground facility where Ava is learning and ultimately planning what to do with the troubled people of Earth Will she succeed Or will we remain oblivious to what is really coming our way With an alien signal to decode time is running out to find a way to save planet Earth and now
