Palmater,2011-05-13 The current Status criteria of the Indian Act contains descent based rules akin to blood quantum that are particularly discriminatory against women and their descendants which author Pamela Palmater argues will lead to the extinguishment of First Nations as legal and constitutional entities Beginning with an historic overview of legislative enactments defining Indian status and their impact on First Nations the author examines contemporary court rulings dealing with Indigenous identity Aboriginal rights and the Canadian Charter of Rights and Freedoms Palmater also examines band membership codes to determine if their reliance on status criteria perpetuates discrimination She offers changes for determining Indigenous identity and citizenship and argues that First Nations must determine citizenship themselves **Principles and Precedents of Moohummudan Law, Being a Compilation of Primary Rules Relative to the Doctrine of Inheritance ... to select members Tribal Constitutionalism presents findings from a comparative study of nearly eight hundred current and historic tribal constitutions most of which are not in the public domain Kirsty Gover examines the strategies adopted by tribes and states to deal with the new legal distinction between indigenous people defined by settler governments and tribal members defined by tribal governments She highlights the important fact that the two categories are imperfectly aligned Many indigenous persons are not tribal members and some tribal members are not legally indigenous Should legal indigenous status be limited to persons enrolled in recognized tribes What is to be done about the large and growing proportion of indigenous peoples who are not enrolled in a tribe and do not live near their tribal territories This book approaches these complex questions head on Using tribal membership criteria as a starting point this book provides a critical analysis of current political and sociolegal theories of tribalism and indigeneity and draws on legal doctrine policy demographic data and tribal practice to provide a comparative evaluation of tribal membership governance in the western settler states

Blood Price Ava Benton, Elias is a vampire but not your average run of the mill vampire He and the rest of the vampires in The Fold were created for the sole purpose of serving as guardians of witches Elias is a Nightwarden He's been awakened from his stasis to serve as Nightwarden to a witch he can barely stand But that doesn't stop him from his duty Until she goes missing Failure is not an option Mariya's sister is High Sorceress of their coven This doesn't frustrate Mariya What frustrates Mariya is that she's inexplicably drawn to the strong silent type specifically her sister's Nightwarden Elias Nightwardens do not engage in relationships Witches do not consort with Nightwardens When Mariya's High Sorceress sister is kidnapped Mariya is forced to work in close proximity with Elias to get her sister back forces feelings to rise to the surface Feelings that are dangerous because a Nightwarden cannot fail and he cannot engage in relationships The penalty is permanent and irreversible It's a penalty Mariya doesn't want him to have to pay that penalty Meanwhile she has a sister that needs saving

Law and the Web of Society Cynthia L. Cates, Wayne V. McIntosh, 2001-07-31 From birth certificates and marriage licenses to food safety regulations and speed limits law shapes nearly every moment of our lives Ubiquitous and ambivalent the law is charged with both maintaining social order and protecting individual freedom In this book Cynthia L. Cates and Wayne V. McIntosh explore this ambivalence and document the complex relationship between the web of law and everyday life They consider the forms and functions of the law charting the American legal structure and judicial process and explaining key legal roles They then detail how it influences the development of individual identity and human relationships

at every stage of our life cycle from conception to the grave The authors also use the word web in its technological sense providing a section at the end of each chapter that directs students to relevant and useful Internet sites Written for upper level undergraduate and graduate students in law and society courses Law and the Web of Society contains original research that also makes it useful to scholars In daring to ask difficult questions such as When does life begin and Where does law begin this book will stimulate thought and debate even as it presents practical answers The Institutional Revolution

Douglas W. Allen, 2024-05-31 Few events in the history of humanity rival the Industrial Revolution Following its onset in eighteenth century Britain sweeping changes in agriculture manufacturing transportation and technology began to gain unstoppable momentum throughout Europe North America and eventually much of the world with profound effects on socioeconomic and cultural conditions In The Institutional Revolution Douglas W Allen offers a thought provoking account of another quieter revolution that took place at the end of the eighteenth century and allowed for the full exploitation of the many new technological innovations Fundamental to this shift were dramatic changes in institutions or the rules that govern society which reflected significant improvements in the ability to measure performance whether of government officials laborers or naval officers thereby reducing the role of nature and the hazards of variance in daily affairs Along the way Allen provides readers with a fascinating explanation of the critical roles played by seemingly bizarre institutions from dueling to the purchase of one's rank in the British Army Engagingly written The Institutional Revolution traces the dramatic shift from premodern institutions based on patronage purchase and personal ties toward modern institutions based on standardization merit and wage labor a shift which was crucial to the explosive economic growth of the Industrial Revolution **Islamic**
