International Handbook of Violence Research Wilhelm Heitmeyer, John Hagan, 2003-12-31 An international manual is like a world cruise a once in a lifetime experience. All the more reason to consider carefully whether it is necessary. This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys. On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments. That was the situation in Western societies when work began on this project in the summer of 1998. It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine. It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible. The editors
