Dostoevsky and English Modernism 1900-1930 Peter Kaye, 1999-05-06 When Constance Garnett's translations 1910-20 made Dostoevsky's novels accessible in England for the first time they introduced a disruptive and liberating literary force and English novelists had to confront a new model and rival The writers who are the focus of this study Lawrence Woolf Bennett Conrad Forster Galsworthy and James either admired or feared Dostoevsky as a monster who might dissolve all literary and cultural distinctions Though their responses differed greatly these writers were unanimous in their inability to recognize Dostoevsky as a literary artist They viewed him instead as a psychologist a mystic a prophet and in the cases of Lawrence and Conrad a hated rival who compelled creative response This study constructs a map of English modernist novelists misreadings of Dostoevsky and in so doing it illuminates their aesthetic and cultural values and the nature of the modern English novel **Criticism of Society in the English Novel Between the Wars** Hena Maes-Jelinek, 2013-05-22 The main concern of this study is the artist's vision of society its major theme is the relation between the individual and society resulting from the impact of social and political upheavals on individual life By criticism of society I mean the novelist's awareness of the social reality and of the individual's response to it the writers I deal with all proved alive to the changes that were taking place in English society between the two World Wars Though the social attitudes of the inter war years as well as the writers response to them were shaped by lasting and complex influences such as trends in philosophy and science the two Wars stand out as determining factors in the development of the novel the consequences of the First were explored by most writers in the Twenties whereas in the following decade the novelists felt compelled to voice the anxiety aroused by the threat of another conflict and to warn against its possible effects After the First World War many writers felt keenly the social disruption the old standards which were thought to have made this suicidal War possible were distrusted the code of behaviour and the moral values of the older generation were openly criticized for having led to bankruptcy Disparagement of authority increased the individual's sense of isolation his insecurity his disgust or fear Even the search for pleasure so widely satirized in the Twenties was the expression of a cynicism born of despair The ensuing disengagement of the individual from his environment became a major theme in the novel his isolation was at once a cause for resentment and the source of his

fierce individualism Choice ,1990 **Catalog of Copyright Entries, Fourth Series** Library of Congress. Copyright Office,1978 **Hey, Charleston!** Anne Rockwell,2013-11-01 What happened when a former slave took beat up old instruments and gave them to a bunch of orphans Thousands of futures got a little brighter and a great American art form was born In 1891 Reverend Daniel Joseph Jenkins opened his orphanage in Charleston South Carolina He soon had hundreds of children and needed a way to support them Jenkins asked townspeople to donate old band instruments some of which had last played in the hands of Confederate soldiers in the Civil War He found teachers to show the kids how to play Soon the orphanage had a band And what a band it was The Jenkins Orphanage Band caused a sensation on the streets of Charleston People called the band s style of music rag a rhythm inspired by the African American people who lived on the South Carolina and Georgia coast The children performed as far away as Paris and London and they earned enough money to support the orphanage that still exists today They also helped launch the music we now know as jazz Hey Charleston is the story of the kind man who gave America some rag and so much more **Encyclopedia of Literary Modernism** Paul Poplawski,2003-12-30 Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890 1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography
