interview with Jake Nanden Name s Jake Nanden Age 34 Please tell us a little about yourself I am 5 11 dark hair short Army
cut slightly curly Green eyes Describe your appearance in 10 words or less Getting middle aged slightly paunchy with drying
skin like paper in places except my mech arm That s synthetic skin on there and as smooth and supple as the day it was
sprayed on I even had mine tattooed but don t tell anyone Would you kill for those you love I kill every day most days to keep
my culture intact I would say that is killing for those I love Of course there is a moral code And as a soldier the moral code is
almost everything After a while killing it sometimes seems to be the only thing you have left Family are too far away Do you
like animals I love animals Their love is unconditional You can never quite be sure with humans can you Do you have a family
Ha Ha Yes A test tube No seriously my mother Mary my sister Justine and a dog a collie called Frisky My adoptive dad was
the famous robotics designer Robert R Nanden but he s dead My mother was his assistant and pretty accomplished at that
Can you remember something from your childhood which influences your behaviour I am not sure about any of my childhood
memories They are probably all implanted I am a replicant The first memory I am sure about is playing on the grass with my
adoptive mother watching me playing cricket She shouted out Jake You are such a talented cyborg Even at my tender age I
knew a replicant was not the same thing as a cyborg and I knew that she should know as her first husband had been a
famous robot designer Her words had always stuck in my head But anyway adoptive parents of replicant children are always
told to create some vivid experience for their kid in the first few days so that the imprinting takes properly So it s probably
not significant Do you have any phobias Mirrors Can t stand them They make me sweat and well I m very nervous around
them I avoid them Please give us an interesting and unusual fact about yourself I write books well I am writing my first a
detective thriller It s kind of Raymond Chandler ish I call it Chanderlesque but I guess that s bad English My adoptive
parents are first generation J5 that s a space station so they kinda inherited a USAC United States of America and Canada
accent Anyway I am rambling The main character is Dusty He d a sucker for the pretty ladies Tell Us About your world
Please give us a little information about the world in which you live Well I was born on Mars at least I was adopted on Mars
We lived under a dome for most of my childhood My most precious memory is of my dad taking me out on a hoverbike to see
the real Mars sunset Of course you could see sunsets from the dome but the U V protection took out most of the colour and I
had nagged him for weeks to take me outside to see one With difficulty because my fingers were so small I lifted the outer U
V filter and gasped The white disk of the sun almost burned a hole in my head Its white was so intense it was almost blue and
the blue became a corona as my eyes quickly looked up and away from it The corona gradually faded into a riot of colour that
filled the rest of my vision The purples and oranges were deeper than those in a bowl of the freshest and most tangy grapes
and peaches Does your world have religion or other spiritual beliefs Do you travel in the course of your adventures If so
where That s three questions in one Yes of course there is religion but I struggle to believe in anything other than a goal of

justice for my friend's death. We have the usual Christianity, Islam, and Hinduism, and a few others that go way back on Earth. Plus we have the god Mech. Well, what can I say about him? It started with cyborgs and androids worshipping the God of mechanical things. They believe Mech created humans to service the machines. Lately, even replicants are converting. Most replicants find it difficult to have faith in anything other than themselves. Name and describe a food from your world. We can make what we like using n-gens, nano generators. Fried is my favourite: bacon, eggs, potatoes, beans, fried bread, and mushrooms. I am old enough to remember what these things are called and what they look like. To most grunts, they are just fried. Does your world have different races of people? If so, do they get on with one another? We are more concerned with Ischians, aliens. We call them Dogs because they have evolved from something like dogs. Pretty formidable though. You don't want to mess with Ishuns. Races. I don't think anybody notices any more. Still a stigma to being a replicant, though. I think that's where people's racism has gone. Name a couple of myths and legends particular to your culture. People: Mech, the god for all A.I. beings; as robots and androids were now permitted to call themselves. Lived in a red world of dust which corroded him, and he had three sons: Iron, Tin, and Wire. They lived in the desert for they were afraid of the sea, but one day Iron, who was the eldest son, committed a sin by openly doubting Mech, and Mech banished him. Iron wandered alone until he came to the sea and left his mark upon a rock, but no more was ever heard from him again. I guess the other one is that God looks after us all. Replicants don't agree. You should see the size of funeral urns replicants get. Then you would know all about inequality.

His is the Replicant Company, and replicants or clones are despised by all. Book 2: Unknown Place. Unknown Universe.
