The Game of Ten P. Tanner, 2022-09-28 A Note to the Reader The Universes can travel as they wish They can appear to be whatever they please Many are beautiful and carry great light But there are some who question the balance of neutrality This behavior causes ripples changes in stability Frightful things are born of unbalanced givers Games are made for fun But by whose definition By whose set of rules and to what end What is fun for one may not be fun for another What is considered fair can vary by perception There is a Game greater than any other a Game with rules that contradict and change as they please A Game with glitches and cheaters and more death than can be described This Game is driven by jealousy and hatred and fear and is never ending Unfortunately in a Game like this there is no such thing as fun Where do Humans belong in this Game you may wonder what part do they play
