Blue Politics:

The Politics of Ecosocialism Kajsa Borgnäs, Teppo Eskelinen, Johanna Perkiö, Rikard Warlenius, 2015-07-24 As the global economy seeks to recover from the financial crisis and warnings about the consequences of climate change abound it is clear that we need a fundamentally new approach to tackle these issues This innovative book offers a unique perspective stressing the necessity of both ecological and social change as it discusses how to create a red green or eco socialist society Examining the current crises of welfare capitalism as well as the challenges and conflicts of an eco socialist society the book proposes a new social order that would combine the ideals of egalitarianism and of environmental sustainability It analyses the key social and ecological issues related to the welfare state including green Keynesianism ecological Marxism the limits of growth and no growth capitalist barriers to a renewable energy transition proposals for a universal basic income and the role of technology Finally the book outlines possible paths of transformation towards creating an eco socialist society drawing out lessons that can be applied internationally This book will be of great interest to students and researchers in economics environmental studies and political science

Brutal and Ruthless Politics Leo L. Minasian, 2008-11 **Kingdom Politics** Kristopher Norris, Sam Speers, 2015-04-16 American Christians weary of decades of entrenched partisan feuding are increasingly distancing themselves from politics Some however continue to turn toward the state and public policy to find solutions to the world's problems The problem is that both responses allow a narrow vision of politics to determine the church's mission and ministries which often ends up separating its commitment to personal faith from the pursuit of social justice the King from the kingdom Christians too easily forget that the church is inherently political a community defined by its allegiance to a King its citizenship in a new world and its call to work alongside others in pursuit of a new way of life The church needs a political vision that is more than blind acceptance or mere rejection of past models It needs a positive vision that takes its cues about politics not from the nation state but from another political reality the kingdom of God This book tells the stories of the visits of two researchers to five diverse congregations across the United States From the megachurch energy of Rick Warren's Saddleback Church in California to a young Emergent community in Minneapolis to the politically active home of Martin Luther King in Atlanta these stories illuminate the vastly different ways congregations understand and approach politics and offer a glimpse of a new political imagination for today's church

Nordic Earner-Carer Politics Anne Lise Ellingsæter, 2024-01-18 This insightful book provides a comprehensive comparative historical analysis of the formation and evolution of Nordic earner carer policies over five decades Spanning parental leave father quotas daycare services and cash for childcare allowances it explores the key roles that ideas and political parties play in the policy reform process

A Dictionary of American Politics Everitt Brown, Albert Strauss, 1892 **Splitsville USA** Christopher F. Zurn, 2023-05-31 Splitsville USA argues that it's time for us to break up to save representative democracy proposing a mutually negotiated peaceful dissolution of the current United States into several new nations Zurn begins by examining the United States

democratic predicament a road most likely headed for electoral authoritarianism with distinct possibilities of ungovernability and violent civil strife Unlike others who share this diagnosis Zurn presents a realistic picture of how we can get to reform and what it would involve It is argued that Splitsville represents the most plausible way for American citizens to continue living under a republican form of government Despite recent talk of secession and civil war this book offers the most extensive treatment yet of the issues we need to think through to enable a peacefully negotiated political divorce Splitsville USA is a provocative conversation opener about the problems that have gotten us into our current political pickle and how to get out of it by seizing the reins of our own constitutional destiny The book will appeal to readers of political science American politics history political philosophy and law along with all general readers interested in the future of democracy in the United States

Polarized Politics and Policy Consequences Diana Epstein, John David Graham, 2007 To elucidate the impact of polarization on the daily lives of U S citizens the research community may need to modify its benchmarks for what constitutes a successful public policy The authors suggest that we need a better understanding of how polarization affects the quantity and substance of rulemaking regulations and judicial decisions We also need to examine the effects of partisan polarization at the state and local levels of government how much polarization complicates the conduct of defense and foreign policy and precisely how polarization affects different policy areas The publication should be of interest to members of Congress presidential candidates civil servants political scientists reporters and stakeholders seeking to influence public policy

Constitutional Politics in Canada and the United States Stephen L. Newman, 2012-02-01 The Canadian constitutional reforms of 1982 which included a Charter of Rights and Freedoms analogous to the American Bill of Rights brought about a convergence with American constitutional law As in the U S Canadian courts have shown themselves highly protective of individual rights and they have not been shy about assuming a leading and sometimes controversial political role in striking down legislation In clear and easy to understand language the contributors not only chart but also explore the reasons for areas of similarity and difference in the constitutional politics of Canada and the United States

Electing Not to Vote Ted Lewis, 2008-06-01 Ethical discourse about the institution of voting rarely includes the option of abstaining for principled reasons This collection of nine articles widens the discussion in that direction by giving readers a new question At what point and on what grounds might one choose not to vote as an act of conscience Contributors offer both ethical and faith based reasons for not voting For some it is a matter of candidates not measuring up to high standards for others it is a matter of reserving political identity and allegiance for the church rather than the nation state These writers representing a wide range of Christian traditions cite texts from diverse sources Mennonites Pentecostals and pre Civil Rights African Americans Some contributors reference the positions of Catholic bishops Karl Barth or John Howard Yoder New Testament texts also figure strongly in these cases for conscientious abstention from voting In addition to cultivating the ethical discussion around abstention from voting the contributors suggest alternative ways beneficially to engage society This volume creates a new freedom for readers within any faith tradition to enter into a dialogue that has not yet been welcomed in North America

Polarization and Deep Contestations Tanja A. Börzel, Thomas Risse, Stephanie B. Anderson, Jean A. Garrison, 2024-10-29 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations This book explores the deep contestations of the liberal script in the contemporary United States from a variety of perspectives US democracy today is in crisis because of a profound ideological and affective polarization The chapters in this volume show that Donald Trump s grip on the Republican Party is a symptom and a catalyst but not the cause of the contemporary contestations of the liberal script in the US To discern their major drivers from a longue dure perspective each chapter takes a step back and asks three main questions 1 How can we best describe the current contestations of the liberal script in the US exploring the extent to which

the US is unique in comparison to other liberal democracies facing similar contestations 2 What are the main drivers and root causes that explain the current contestations and the crisis of American democracy they may precipitate 3 What are the likely consequences for the future of American democracy The conclusions do not lead us to expect a return to the norm of internal contestations of the liberal script that are common in liberal democracies and have characterized the US throughout its history Political economic and cultural polarization is by now deeply entrenched in American society and is eroding mutual toleration as the basis of American democracy In other words the resilience of US liberal democracy is at stake It is unlikely that we will see the US liberal script bounce back in the near future This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS which analyzes the contemporary controversies about liberal ideas institutions and practices on the national and international level from a historical global and comparative perspective It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions Operating since 2019 and funded by the German Research Foundation DFG SCRIPTS unites eight major Berlin based research institutions Freie Universit t Berlin the Humboldt Universit t zu Berlin the Berlin Social Science Center WZB the Hertie School the German Institute for Economic Research DIW the Berlin branch of the German Institute of Global and Area Studies GIGA the Centre for East European and International Studies ZOiS and the Leibniz Zentrum Moderner Orient ZMO
