Wise, 1994 The Valour and the Horror Revisited brings together source documents original essays and commentaries to provide an analysis of the specific accusations and of larger questions concerning responsible journalism **The Strategic Air Offensive Against Germany** Sir Charles Kingsley Webster, Noble Frankland, 1961 **Strategic Bombing by the United States in World War II** Stewart Halsey Ross, 2015-10-03 The United States relied heavily on bombing to defeat the Germans and the Japanese in World War II and air raids were touted as precision bombing in American propaganda But was precision possible over cloud covered Europe or a darkened Japanese countryside Could the vaunted Norden optical bombsight in fact drop bombs into pickle barrels as advertised Were the American aircrews well trained and well protected How good were their airplanes What were the results of the costly raids This work sets suppositions against facts surrounding the United States use of strategic bombing in World War II Chapters cover the events leading up to World War II the start of the war the seers and the planners the airplanes bombs bombsights and aircrews the planes Germany used to defend itself against American planes the five cities Hamburg Dresden Tokyo Hiroshima and Nagasaki that experienced the most destruction and the U S Strategic Bombing Survey of the damage done by aerial bombing The book also probes the government s myth building statements that supported America s view of itself as a uniquely humanitarian nation and analyzes the role played by interservice rivalry battleship admirals against bomber generals *Strategic Air Offensive Against Germany* Senior Research Fellow Charles Webster, Sir Charles Webster Staff, 2006-05-01 1943 was the watershed year for Bomber Command s ever escalating strategic air offensive against Germany As the authors of this second in the four volume official history of the bomber offensive point out in the first three months of that year the average number of bombers available to the RAF for operations against Germany almost doubled from 500 to 974 including nearly 600 of the new fast and heavy Lancaster bombers At the same time British aircrew were augmented by the Dominions chiefly Canadians Australians and New Zealanders By January 1945 46 percent of Bomber Command s pilots came from the Dominions over half of them Canadians 1943 was also the year when the USAF joined the offensive and although their unescorted daylight raids on selected targets suffered a fearful casualty toll from German fighters they set the pattern for future combined Anglo American operations against Germany The authors also examine the splits that opened up between the three men directing the offensive Sir

Charles Portal the Chief of Air Staff Sir Arthur Harris head of Bomber Command and General Eaker the head of the Eighth US Air Force The Americans advocated strict selection of targets while Harris backed all out area attacks on such targets as Hamburg the Ruhr and Berlin For most of 1943 the authors argue allied co operation was replaced by competition between the two schools of thought Portal's Air Staff eventually backed the Americans directing Bomber Command to hit targets producing German planes and aircraft parts One result was the RAF's raid on the Schweinfurt ball bearings centre in February 1944 Another precision target examined here was 617 Squadron's famous Dambusters raid As effective long range allied fighters came into service to protect the US day bombers the Combined Allied bomber offensive really began in early 1944 However hopes that bombing alone would be enough to cripple the German war effort proved the authors admit completely abortive In fact German armaments production actually increased by leaps and bounds under the skilful direction of armaments minister Albert Speer As a result the book concludes with an attempt by the authors to gauge the effects of Harris area bombing offensive Well illustrated with 15 maps and 35 photographs of aircrew aircraft bomb damage etc
