between American forces and the Japanese who were losing but determined to fight till the bitter end And so it fell to a new president Harry S Truman to make the fateful decision to drop two atomic bombs one on Hiroshima and one on Nagasaki and bring the war to rapid close Now even seventy years later can anyone know if this was the right choice In a thoughtful account of these history changing events Jess Brallier explains the leadup to the bombing what the terrible results of it were and how the threat of atomic war has colored world events since Miracle of Deliverance Stephen Harper,1985 **The Age of Hiroshima** Michael D. Gordin,G. John Ikenberry,2020-01-14 A multifaceted portrait of the Hiroshima bombing and its many legacies On August 6 1945 in the waning days of World War II the United States dropped an atomic bomb on the Japanese city of Hiroshima The city's destruction stands as a powerful symbol of nuclear annihilation but it has also shaped how we think about war and peace the past and the present and science and ethics The Age of Hiroshima traces these complex legacies exploring how the meanings of Hiroshima have reverberated across the decades and around the world Michael D Gordin and G John Ikenberry bring together leading scholars from disciplines ranging from international relations and political theory to cultural history and science and technology studies who together provide new perspectives on Hiroshima as both a historical event and a cultural phenomenon As an event Hiroshima emerges in the flow of decisions and hard choices surrounding the bombing and its aftermath As a phenomenon it marked a revolution in science politics and the human imagination the end of one age and the dawn of another The Age of Hiroshima reveals how the bombing of Hiroshima gave rise to new conceptions of our world and its precarious interconnectedness and how we continue to live in its dangerous shadow today *Masako's Story* Kikuko Otake,2011-12-28 On August 6 1945 when the world's first atomic bomb was dropped on Hiroshima the Furuta family was living one mile away from the hypocenter Five year old Kikuko her mother Masako and her two brothers barely escaped with their lives However their soldier father was not so fortunate Masako never talked about her family's experiences on that day and the grim days following the bombing Then one day Masako started to talk about what happenedbreaking a silence of nearly fifty years Written by Kikuko Furuta Otake now a retired assistant professor of Japanese in the United States Masako's story is a collection of prose poetry based on the true story of her family's tragedy It is written with an Objectivist lineation similar in its understated power to Charles Reznikoff's Testimony Kikuko Otake's Masako's Story is a powerful addition to the literature of the Atomic Bomb and yet more evidence that we should all work together to stop the Nuclear madness *The Atomic Bombings of Hiroshima and Nagasaki* Jamie Poolos,2008 Describes the events preceding and during the atomic bomb attacks on Japan in 1945 that effectively ended World War II

The Final Solution Mike Parson, 2020-10-17 The judgments of historians regarding the atomic bombing of Hiroshima during World War II can be grouped into two opposing camps those who believe President Truman made the right choice and those who decry that decision believing that other options were ignored and the motives presented for dropping the bomb were suspect Many critics of the atomic bombing also argue that the decision failed to meet the discrimination and proportionality criteria outlined in Just War Theory specifically *jus in Bello* or conduct during the war and therefore must be deemed an immoral act In examining whether the atomic bombing was a reasonable decision this book analyzes the important variables and competing interests that President Truman considered and concludes that the atomic bombing was a sensible and rational choice and therefore reasonable In determining whether the atomic bombing of Hiroshima was a just decision this thesis examines that fateful decision through the prism of Just War Theory and the Natural Law traditions of the individual's Right to Life and the state's Right to Independence and concludes that it was a just decision The detailed review and analysis of the history behind the Hiroshima bombing reveal that President Truman was a prisoner of circumstances that existed in the summer of 1945 The options available to him were distressing and his decision to drop the atomic bomb on Hiroshima considering the dire situation was well within reason and admirably proved prescient
