new way of understanding the history of civilization Gold has been coinage treasure and adornment But it has been much more as the hidden driver of wars and revolutions the rise and fall of empires and the transformation of societies As the sun traveled east to west across the sky gold incorruptible and corrupting flowed west to east hand to hand across the world That flow has brought empires to grow and collapse and driven plunder conquest and colonization It brought about wars and revolutions empowered new forms of arts and science and created the capitalist consumer economy that dominates us now All the gold people ever shaped still exists shining as new it can be mislaid but never decays Right from its first appearance on the west shore of the Black Sea long before the rise of Egypt and Mesopotamia gold crowned the first proto king Ever since it has been regarded as value incarnate with transcendental power The quantity we take has been increasing steadily for 6 500 years Now extraction accelerates Our gold mountain has doubled in the last fifty years Yet its price increases faster While the quantity doubled its buying power multiplied by six What does gold do that makes us want it so much As Alan Ereira reveals in this skilfully woven narrative gold is the hidden actor that shapes our story Mines Register Walter Harvey Weed, Horace Jared Stevens, Walter Garfield Neale, Edward Barney Sturgis, Lenox Hawes Rand, Joseph Zimmerman, 1963
