Bond Men Made Free Rodney Hilton, 2003-05-20 First Published in 1977 Routledge is an imprint of Taylor Francis an informa company

Bond Men Made Free Rodney Howard Hilton, 1988 Rodney Hilton's account of the Peasant's Revolt of 1381 remains the classic authoritative text on the English Rising Hilton views the revolt in the context of a general European pattern of class conflict He demonstrates that the peasant movements that disturbed the Middle Ages were not mere unrelated outbreaks of violence but had their roots in common economic and political conditions and in a recurring conflict of interest between peasants and landowners Now with a new introduction by Christopher Dyer this survey is still a leading source for students of medieval English peasantry

Venomous Tongues Sandy Bardsley, 2006 Sandy Bardsley examines the complex relationship between speech and gender in the fourteenth and fifteenth centuries and engages debates on the static nature of women's status after the Black Death Focusing on England *Venomous Tongues* uses a combination of legal literary and artistic sources to show how deviant speech was increasingly feminized in the later Middle Ages Women of all social classes and marital statuses ran the risk of being charged as scolds and local jurisdictions interpreted the label scold in a way that best fit their particular circumstances Indeed Bardsley demonstrates this flexibility of definition helped to ensure the longevity of the term women were punished as scolds as late as the early nineteenth century The tongue according to late medieval moralists was a dangerous weapon that tempted people to sin During the fourteenth and fifteenth centuries clerics railed against blasphemers liars and slanderers while village and town elites prosecuted those who abused officials or committed the newly devised offense of scolding In courts women in particular were prosecuted and punished for insulting others or talking too much in a public setting In

literature both men and women were warned about women's propensity to gossip and quarrel while characters such as Noah's Wife and the Wife of Bath demonstrate the development of a stereotypically garrulous woman. Visual representations such as depictions of women gossiping in church also reinforced the message that women's speech was likely to be disruptive and deviant.

Political Allegory in Late Medieval England Ann W. Astell, 2002-01-01 Ann W. Astell here affords a radically new understanding of the rhetorical nature of allegorical poetry in the late Middle Ages. She shows that major English writers of that era, among them William Langland, John Gower, Geoffrey Chaucer, and the Gawain poet, offered in their works of fiction timely commentary on current events and public issues. Poems previously regarded as only vaguely political in their subject matter are seen by Astell to be highly detailed and specific in their veiled historical references, implied audiences, and admonitions. Astell begins by describing the Augustinian and Boethian rhetorical principles involved in the invention of allegory. She then compares literary and historical treatments of key events in fourteenth and fifteenth-century England, finding an astonishing match of allusions and code words, especially those deriving from puns, titles, heraldic devices, and personal cognizances, as well as repeated proverbs, prophecies, and exempla. Among the works she discusses are John Ball's Letters and parts of Piers Plowman, which she presents as two examples of allegorical literature associated with the Peasants' Revolution of 1381. Gower's allegorical representation of the Merciless Parliament of 1388 in *Confessio Amantis* and Chaucer's brilliant literary handling of key events in the reign of Richard II. In addition, Astell argues for a precise dating of Sir Gawain and the Green Knight between 1397 and 1399 and decodes the work as a political allegory.

Medieval Society and the Manor Court Zvi Razi, Richard Michael Smith, 1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of
