Bibliophiles, Murderous Bookmen, and Mad Librarians Robert Richmond Ellis, 2022-03-01 The word bibliophilia indicates a love of books both as texts to be read and objects to be cherished for their physical qualities Throughout the history of Iberian print culture bibliophiles have attempted to explain the psychological experiences of reading and collecting books as well as the social and economic conditions of book production Bibliophiles Murderous Bookmen and Mad Librarians analyses Spanish bibliophiles who catalogue organize and archive books as well as the publishers artists and writers who create them Robert Richmond Ellis examines how books are represented in modern Spanish writing and how Spanish bibliophiles reflect on the role of books in their lives and in the histories and cultures of modern Spain Through the combined approaches of literary studies book history and the book arts Ellis argues that two strains of Spanish bibliophilia coalesce in the modern period one that envisions books as a means of achieving personal fulfilment and another that engages with politics and uses books to affirm linguistic cultural and regional and national identities **Books and Bidders: The Adventures of a Bibliophile** Abraham Simon Wolf Rosenbach, Genius The tall old man with the fan shaped beard looked eagerly at his companion then settled back more heavily against the rows and rows of old books lining the walls to the ceiling on all sides of the room Of course Edgar was a genius but in spite of being a gambler and a drunkard in spite of it I tell you The other a thin man of lesser years his long inquiring face meditative in the twilight nodded You are right he agreed But what difference did it make The only question is would The Raven have been any greater without his gambling and drinking I doubt it The argument was on and my uncle Moses Polock would lean forward now and again waving his coatless arms he handled books easier in shirt sleeves in an effort to gain a point His peculiarly young and penetrating blue eyes glistened Opposite George P Philes a noted editor and book collector twirled a gray moustache and goatee while balancing in a tilted chair listening calmly and patiently relighting a half smoked cigar which went out often as the verbal heat increased I would watch these two dazed with their heated words concerning authors and their works hear them make bookish prophecies most of which came true A favorite subject was their neurotic friend Edgar Allan Poe Both had befriended this singularly unfortunate and great writer and each had certain contentions to make which led through the fire of argument to the cooler and more even discussion of reminiscences But they did agree that it would take less than fifty years after Poe s death to make first editions of his works the most valuable of all American authors It was in 1885 when I was nine years old that I first felt the haunting atmosphere of Uncle Moses bookshop on the second floor of the bulging red brick building on Commerce Street in old Philadelphia At that age I could hardly realize spellbound as I was the full quality of mystery and intangible beauty which becomes a part of the atmosphere wherever fine books are brought together for here was something which called to me each afternoon just as the wharves the water and the ships drew other boys who were delighted to get away from books the moment school was out Whatever it was some glibly speak of it as bibliomania it entered my bones then and has grown out of all proportion ever since The long walk from the bookshop to my home in the twilight the moon just coming up throwing long shadows across the white slab of Franklin's grave which I had to pass was sometimes difficult but as I grew older I learned to shut my eyes against imaginary fears and in a valiant effort to be brave hurried past darkened corners and abysmal alleyways inventing a

game by which I tried to visualize the only touches of color in Uncle Moses musty dusty shop occasional brilliantly bound volumes Running along I also cross examined myself on quotations and dates from books and manuscripts through which I had prowled earlier in the day unwittingly developing a memory which was often to stand me in good stead A Handy-book about Books, for Book-lovers, Book-buyers, and Book-sellers John Power,1870 International Directory of Second-hand Booksellers and Bibliophile's Manual James Clegg,1899 The International Directory of Booksellers and Bibliophile's Manual James Clegg,1899 American Book-lore, 1898 Book News, 1890
