Book Of Witches 1908:

Satanic Feminism Per Faxneld,2017 The notion of woman as the Devil s accomplice is prominent throughout Christian history and was used to legitimise the subordination of wives and daughters In the 19th century rebellious females performed counter readings of this misogynist tradition and Lucifer was reconceptualised as a feminist liberator Per Faxneld shows how this surprising Satanic feminism was expressed in a wide range of 19th century texts and artistic productions **The Book**

of Witches Oliver Madox Hueffer,2025-07-17 A compelling study of myth fear and folklore The Book of Witches examines the origins ancient magic and enduring power of the witch throughout history Witches have haunted the human imagination for centuries feared revered hunted and misunderstood From the sacred temples of ancient goddesses to the burning pyres of witch trials Oliver Madox Hueffer follows the evolution of the witch across cultures and centuries Exploring the origins of witchcraft its rituals and persecutions he uncovers forgotten charms and traditional rituals superstitious anxieties and arcane lore First published in 1909 The Book of Witches remains a fascinating account of the beliefs practices and cultural tensions that shaped the witch s story across ages and continents *Old World Witchcraft* Raven Grimassi,2025-09-12 In Old World

Witchcraft noted author Raven Grimassi covers totally new territory in his work and in the world of popular witchcraft books published in the last few decades This book is actually about an enchanted worldview one that has not necessarily been inherited from the beliefs and practices of any particular region and one which is available to us today The Old World in the title is actually about a magical view of the Plant Kingdom and the spirits attached to it While Grimassi s previous books discuss the cultural expressions and commonality of witchcraft beliefs and practices in general this book penetrates much deeper Old World Witchcraft reveals rarely discussed topics such as the concept of Shadow as the organic memory of the earth Readers will learn rooted techniques that possess power because these ways have always been connected to it They will learn methods of interfacing with the ancestral current and with the organic memory of the earth Through these they can connect with the timeless arts and learn methods of empowerment directly from the ancient source Totally new information about familiar tools is presented For example the mortar and pestle is a tool for spell casting a device that creates interfacing with plant spirits and with shadow and a focal point for veneration of the Plant Kingdom Grimassi also presents the art of using plant ashes for magical sigil work This book is for people who have had their fill of books that say the same things over and over who want to take the next step and who are eager for the more rooted ways that have remained largely hidden
