*From Text to Tradition* examines the history of Judaism as it developed from the religion of biblical Israel to the Judaism of the talmudic rabbis Each step in this process is discussed from the historical literary and religious points of view and the context of the political history of the Jews Among the topics covered in this connection are the biblical heritage which underlies all later Judaism the importance of the Persian period for laying the groundwork for postbiblical Judaism the confrontation of Judaism with Hellenism apocrypha pseudepigrapha and the Dead Sea Scrolls Pharisees Sadducees and Essenes the Jewish Christian schism the impact of the Jewish revolts against Rome and the destruction of the Temple the rise of Rabbinic Judaism and the development of the Mishnah Talmud and Jewish law One of the books major theses is that the various approaches to Judaism shared sufficient common ground as to be classified as one albeit variegated religious tradition Diverging trends may be and are traced during this period as is the question of the role of interpretation the impact of external influences and the process by which the competing approaches were eventually supplanted by the rabbinic tradition which became the basis for medieval and modern Judaism In this way Judaism is shown to have travelled the long road from the textual heritage of the Hebrew Bible to the oral tradition of the rabbis **Essays on the Making of the Early Hebrew Book** Marvin J. **The Idea of Modern Jewish Culture** Eliezer Schweid, 2008. The vast majority of intellectual, religious, and national developments in modern Judaism revolve around the central idea of Jewish culture. This book is the first synoptic view of these developments that organizes and relates them from this vantage point. The first Jewish modernization movements perceived culture as the defining trait of the outside alien social environment to which Jewry had to adapt. To be cultured was to be modern European, as opposed to medieval ghetto Jewish. In short order, however, the Jewish religious legacy was redefined retrospectively as a historical culture with fateful consequences for the conception of Judaism as a humanly and not only divinely mandated regime. The conception of Judaism as culture took two main forms: an integrative vernacular Jewish culture that developed in tandem with the integration of Jews into the various nations of western central Europe and America; and a national Hebrew culture which, though open to the inputs of modern European society, sought to develop a revitalized Jewish national identity that ultimately found expression in the revival of the Jewish homeland and the State of Israel.

**Classical Liberalism and the Jewish Tradition** Edward Alexander, 2017-10-24. The incongruence, if not antagonism, between modern liberalism and the Jewish sense of the world has been most notably articulated by Lionel Trilling. Certainly the imaginative limitations and intellectual smugness he discerned in his own ideological party found a parallel in his view in the embrace of liberalism by the American Jewish community. The consequences of that embrace entail both a superficial intellectual and religious culture and a misunderstanding of the social and political dimensions of Judaism. In *Classical Liberalism and the Jewish Tradition*, Edward Alexander engages in a wide-ranging exploration of the roots of the fundamental antagonism between liberalism and Jewish tradition from the nineteenth century to the present day. Central to Alexander's arguments is his incisive critique of the distortion of modern Judaism as a child of the Enlightenment and the notion that specifically Jewish concerns, whether with Zionism, the Holocaust, or sacred and secular writings, constitute a narrow and parochial betrayal of liberal interests. The chapters are divided among political, religious, and literary subjects. The opening chapter on Mill's ambivalent attitude toward the Jews establishes terms of conflict between Judaism and liberal secularism and universality, as do chapters on the antisemitism of Thomas Arnold and Marx, and the more ambiguous Jewish self-identification of Disraeli. Alexander examines such disparate topics as the hostility to the idea of a Jewish state on the part of numerous Israeli intellectuals, the disdain among liberals toward the specifically Jewish dimension of the Holocaust, and the capitulation of the Modern Language Association to the anti-Zionism of Edward Said. Turning to the uneasy status of Jewish religious texts and secular literature as

sources of cultural revitalization Alexander deals with the attempt by the Israeli scholar Adin Steinsaltz to bring the Talmud to the attention of contemporary Jewish readers and includes a chapter on his nineteenth century precursor Emanuel Deutsch and his relationship to George Eliot An analysis of Ruth Wisse's efforts to establish a modern Jewish literary canon is rounded out by chapters on two of the major figures of that canon Isaac Bashevis Singer and Philip Roth While diverse in subject matter Classical Liberalism and the Jewish Tradition is consistent in its unapologetic advocacy of a Jewish point of view and in its depth of scholarship in tracing the historical roots of contemporary attitudes and ideologies
