**Music, Nature and Divine Knowledge in England, 1650-1750** Tom Dixon,2023 During a period of tumultuous change in English political religious and cultural life music signified the unspeakable presence of the divine in the world for many What was the role of music in the early modern subject's sensory experience of divinity While the English intellectuals Peter Sterry 1613 72 Richard Roach 1662 1730 William Stukeley 1687 1765 and David Hartley 1705 57 have not been remembered for their musicking this book explores how the musical reflections of these individuals expressed alternative and often uncustomary conceptions of God the world and the human psyche Music is always potentially present in their discourse emerging as a crucial form of mediation between states exoteric and esoteric material and spiritual outer and inner public and private rational and mystical Dixon shows how Sterry Roach Stukeley and Hartley's shared belief in truly universal salvation was articulated through a language of music implying a feminising influence that set these male individuals apart from contemporaries who often strictly emphasised the rational i.e. the supposedly masculine aspects of religion Musical discourse instead provided a link to a spiritual plane that brought these intellectuals closer to ultimate reality Theirs was a discourse firmly rooted in the real existence of contemporary musical practices both in terms of the forms and styles implied in the writings under discussion and the physical circumstances in which these musical genres were created and performed Through exploring ways in which the idea of music was employed in written transmission of elite ideas this book challenges conventional classifications of a seventeenth century Scientific Revolution and an eighteenth century Enlightenment defending an alternative narrative of continuity and change across a number of scholarly disciplines from seventeenth century English intellectual history and theology to musicology and the social history of music      **Billboard** ,1997-11-22 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and
