Popularizing the Past Nick Witham,2023-07-26 Popularizing the Past tells the stories of five postwar historians who changed the way ordinary Americans thought about their nation s history What s the matter with history For decades critics of the discipline have argued that the historical profession is dominated by scholars unable or perhaps even unwilling to write for the public In Popularizing the Past Nick Witham challenges this interpretation by telling the stories of five historians Richard Hofstadter Daniel Boorstin John Hope Franklin Howard Zinn and Gerda Lerner who in the decades after World War II published widely read books of national history Witham compellingly argues that we should understand historians efforts to engage with the reading public as a vital part of their postwar identity and mission He shows how the lives and writings of these five authors were fundamentally shaped by their desire to write histories that captivated both scholars and the elusive general reader He also reveals how these authors efforts could not have succeeded without a publishing industry and a reading public hungry to engage with the cutting edge ideas then emerging from American universities As Witham s book makes clear before we can properly understand the heated controversies about American history so prominent in today s political culture we must first understand the postwar effort to popularize the past

Contemporary Feminist Historical Crime Fiction R. Johnsen,2006-08-19 By examining the feminist interventions of contemporary women writers working in this subgenre Johnsen advances the existing critical discussion of women s crime fiction The writers studied here bring research expertise to bear on their chosen historical settings creating a powerful but widely accessible statement about women in history *The Routledge History of Women in Europe since 1700* Deborah Simonton,2006-04-27 The Routledge History of Women in Europe since 1700 is a landmark publication that provides the most coherent overview of woman s role and place in western Europe spanning the era from the beginning of the eighteenth century until the twentieth century In this collection of essays leading women s historians counter the notion of national histories and provide the insight and perspective of a European approach Important intellectual political and economic developments have not respected national boundaries nor has the story of women s past or the interplay of gender and

culture The interaction between women ideology and female agency the way women engaged with patriarchal and gendered structures and systems and the way women carved out their identities and spaces within these informs the writing in this book For any student of women s studies or European history The Routledge History of Women in Europe since 1700 will prove an informative addition to their studies *Clio's Favorites* Robert Allen Rutland,2000 Although historians talk about each other s work routinely they have been reluctant to record their thoughts about the leading practitioners of U S history Robert Allen Rutland attempts to remedy this state of things with this collection named for Clio the Greek muse vested with the inspirations of history The volume offers a glimpse of the lives and work of historians who must be considered among the most remarkable from the last half of the twentieth century The roll call of excellence for Clio s Favorites was established after Rutland informally polled some twenty five historians asking them to name the outstanding workers in the field of U S history since the end of World War II Among the criteria for selection were quality not volume of the historian s work influence in the field of study importance of his or her graduate and undergraduate teaching and the figure s public persona as reflected by awards honors and involvement in public service The historians profiled in Clio s Favorites most of whom broke new ground met and surpassed these standards The list could have gone on but Rutland believes these twelve represent the cream of the crop Just as the subject of each essay in Clio s Favorites is a remarkably distinguished historian the authors of these twelve essays are accomplished historians themselves Good historical writing is never outdated Rutland argues The extensive work of the scholars profiled here has endured and will continue to endure Likewise the writing in Clio s Favorites by twelve expert historians will survive This book will be a lasting record of the contributions made by the best U S historians practicing their craft over the last fifty years Woman and the Republic Helen Kendrick Johnson,2018-05-23 Reproduction of the original Woman and the Republic by Helen Kendrick Johnson Congressional Record United States.
