Booker T Washington The Negro's Place:

Booker T. Washington and the Art of Self-representation Michael Bieze, 2008 This series explores the history of schools and schooling in the United States and other countries The series will examine the historical development of schools and educational processes with special emphasis on issues of educational policy curriculum and pedagogy as well as issues relating to race class gender and ethnicity Special emphasis will be placed on the lessons to be learned from the past for contemporary educational reform and policy Although the series will publish books related to education in the broadest societal and cultural context it especially seeks books on the history of specific schools and on the lives of educational leaders and school founders An Old Creed for the New South John David Smith, 2008-02-12 An Old Creed for the New South Proslavery Ideology and Historiography 1865 1918 details the slavery debate from the Civil War through World War I Award winning historian John David Smith argues that African American slavery remained a salient metaphor for how Americans interpreted contemporary race relations decades after the Civil War Smith draws extensively on postwar articles books diaries manuscripts newspapers and speeches to counter the belief that debates over slavery ended with emancipation After the Civil War Americans in both the North and the South continued to debate slavery's merits as a labor legal and educational system and as a mode of racial control The study details how white Southerners continued to tout slavery as beneficial for both races long after Confederate defeat During Reconstruction and after Redemption Southerners continued to refine proslavery ideas while subjecting blacks to new legal extralegal and social controls An Old Creed for the New South links pre and post Civil War racial thought showing historical continuity and treats the Black Codes and the Jim Crow laws in new ways connecting these important racial and legal themes to intellectual and social history Although many blacks and some whites denounced slavery as the source of the contemporary Negro problem most whites including late nineteenth century historians championed a new proslavery argument The study also traces how historian Ulrich B Phillips and Progressive Era scholars looked at slavery as a golden age of American race relations and shows how a broad range of African Americans including Booker T Washington and W E B Du Bois responded to the proslavery argument Such ideas Smith posits provided a powerful racial creed for the New South This examination of black slavery in the American public mind which includes the arguments of former slaves slaveholders Freedmen's Bureau agents novelists and essayists demonstrates that proslavery ideology dominated racial thought among white southerners and most white northerners in the five decades following the Civil War The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America *A History of African-American Leadership* John White, Bruce J. Oratory in the New South Waldo W. Braden, 1999-03-01 The thirty years prior to the Civil War were flamboyant and fiery times for the South People had a passion for political issues and an ear for the lusty oratory that could be heard at any gathering social or political In *Oratory in the Old South* Waldo Braden and his associates looked past the popular myths of that era and uncovered the true nature of the oratory of the times In this sequel to that earlier volume Braden and seven other speech scholars examine the oratory of accommodation that dominated the southern forum in the post Civil War years Speakers of this era they find had to overcome problems of spirit and morale their challenge was to build up the political and personal confidence of a people who were defeated By the same token these speakers had to adapt their oratory to outside influences that had the power to exert military pressure withhold funds and employ negative political coercion The eight essays of the book are developed topically and the issues of racism women s rights states rights industrialization and education are delineated as they weave into the developing story of the New South Among the topics dealt with are the promotion of cultural myths the tactics of Henry W Grady as a propagandist for the New South the oratory of the United Confederate Veterans and the emergence of women as speakers for reform The oft repeated myths and encouragements of the orators helped give southerners the distinction they thought lost a sense of nationalism Once created this cohesive regionalism wrought a power pride and prestige so strong that they defied challenge and made many southerners impervious to change and progress until well after 1950 *Oratory in the New South* reveals many sources of the South s modern self concept and stands as a unique account of this formative period

Blacks at Harvard Werner Sollors, Caldwell Titcomb, Thomas A. Underwood, Randall Kennedy, 1993-03-01 The history of blacks at Harvard mirrors for better or for worse the history of blacks in the United States Harvard too has been indelibly scarred by slavery exclusion segregation and other forms of racist oppression At the same time the nation s oldest university has also at various times stimulated supported or allowed itself to be influenced by the various reform movements that have dramatically changed the nature of race relations across the nation The story of blacks at Harvard is thus inspiring but painful instructive but ambiguous a paradoxical episode in the most vexing controversy of American life the race question The first and only book on its subject *Blacks at Harvard* is distinguished by the rich variety of its sources Included in this documentary history are scholarly overviews poems short stories speeches

well known memoirs by the famous previously unpublished memoirs by the lesser known newspaper accounts letters official papers of the university and transcripts of debates Among Harvard's black alumni and alumnae are such illustrious figures as W E B Du Bois Monroe Trotter and Alain Locke Countee Cullen and Sterling Brown both received graduate degrees The editors have collected here writings as diverse as those of Booker T Washington William Hastie Malcolm X and Muriel Snowden to convey the complex ways in which Harvard has affected the thinking of African Americans and the ways in turn in which African Americans have influenced the traditions of Harvard and Radcliffe Notable among the contributors are significant figures in African American letters Phyllis Wheatley William Melvin Kelley Marita Bonner James Alan McPherson and Andrea Lee Equally prominent in the book are some of the nation's leading historians Carter Woodson Rayford Logan John Hope Franklin and Nathan I Huggins A vital sourcebook Blacks at Harvard is certain to nourish scholarly inquiry into the social and intellectual history of African Americans at elite national institutions and serves as a telling metaphor of this nation's past

The Age of Charisma Jeremy C. Young, 2017 This book demonstrates how the modern relationship between leaders and followers in America grew out of late nineteenth and early twentieth century charismatic social movements

Hall, 2013-10-22 Black Separatism and Social Reality Rhetoric and Reason deals with the contemporary debate over black separatism in America It brings together for the first time many of the perspectives ideas orientations and ideologies that all directly or indirectly address the question of black separatism pro and con from the vantage point of their own realities It raises fundamental issues that have recurred throughout the last century and continue unabated today such as whether black Americans should seek their political destiny apart from white Americans or whether economic growth within the black community can eventually lead to true black power This book is comprised of 31 chapters and begins with a historical overview and social reality of black separatism in America how and why black separatist movements emerge and why separatism appeals to some individuals and not to others The next section explores the similarities of white racist assumptions and black separatism as well as the arguments for and against separatism The prospects of black separatism are analyzed along with Pan Africanism and black studies A comprehensive review of the history of separatist thought and a bibliography concerning the relation of Afro Americans with Africa are presented The possibility of a violent confrontation between whites and blacks is also considered Finally the book ponders the question of whether there is a need for a distinct black social science This monograph will appeal to sociologists social scientists political scientists politicians blacks and scholars of black studies

Scholars in Black Social Thought Marie-Claude Jipguep-Akhtar, Nazneen M. Khan, 2024-10-15 Fifty Key Scholars in Black Social Thought is a collaborative volume that uplifts and explores the intellectual activism and scholarly contributions of Black social thinkers. It implores readers to integrate the research of Black scholars into their teaching and research and fundamentally to rethink the dominant epistemological claims and philosophical underpinnings of the Western social sciences. The volume features 50 chapters written by 55 scholars who explore the diverse contributions of notable Black thinkers both historical and contemporary. Four thematic areas organize this work: Black epistemology, Black geopolitics, Black oppression and resistance, and Black families and communities. Through a close analysis of the fifty thinkers presented here, the chapters explore these themes while dismantling the whitewashed disciplinary histories, methodologies, and content that obscure and or subjugate the significance of Black social thought. In addition to offering insightful and timely analysis, each chapter offers suggested readings for readers who would like to dive deeper into the work of Black social thinkers. This volume offers an accessible starting point for exploring the work of Black scholars past and present and their contributions to sociology and the social sciences more broadly. It is useful to students, academics, practitioners, and the lay public who are curious about Black social thought.

The debate on black civil rights in America Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present. It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today. There is analysis of the changing scholarly interpretations of African American leaders from Booker T. Washington through to Barack Obama. The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump. The civil rights struggle is also discussed in the context of wider political, social, and economic changes in the United States and developments in popular culture.
