Alain Badiou A Critical Introduction:

Alain Badiou Jason Barker, 2002 Alain Badiou is rapidly emerging as one of the most radical and influential philosophers of our time Badiou opposes the contemporary reduction of philosophy to nothing but a matter of language and premature announcements of the end of philosophy and thus sets himself against both analytic and continental modes of philosophy Setting the traditional platonic concerns of philosophy truth and being against the modern sophists of postmodernism Badiou has articulated a powerful systematic philosophy with profound ethical and political consequences *Badiou and Indifferent Being* William Watkin, 2017-09-21 The first critical work to attempt the mammoth undertaking of reading Badiou's *Being and Event* as part of a sequence has often surprising occasionally controversial results Looking back on its publication Badiou declared I had inscribed my name in the history of philosophy Later he was brave enough to admit that this inscription needed correction The central elements of Badiou's philosophy only make sense when *Being and Event* is read through the corrective prism of its sequel *Logics of Worlds* published nearly twenty years later At the same time as presenting the only complete overview of Badiou's philosophical project this book is also the first to draw out the central component of Badiou's ontology indifference Concentrating on its use across the core elements *Being and Event* the void the multiple the set and the event Watkin demonstrates that no account of Badiou's ontology is complete unless it accepts that Badiou's philosophy is primarily a presentation of indifferent being Badiou and *Indifferent Being* provides a detailed and lively section by section reading of Badiou's foundational work It is a seminal source text for all Badiou readers *Badiou and Communicable Worlds* William Watkin, 2021-02-25 *Logics of Worlds* stands as one of the most important texts in contemporary thought Conceived as the sequel to Alan Badiou's *Being and Event* the book expands upon and elucidates the questions that were posed in the first book As a complex theory of worlds the text has for the most part been misunderstood but in William Watkin's diligent and critical close reading of the book he makes the case for *Logics of Worlds* being the essential Badiou book for anyone interested in existence meaning and the potential for radical change For Watkin this recasting of ontology is followed by a transformation of logic which is not only a theory of being but of appearing and allows Badiou to give new meaning to the object body and relation To do this he explores these concepts through architecture astronomy and renowned thinkers such as Kant Hegel and Kierkegaard For students of French Continental philosophy ontology and Badiou himself Watkin's commentary on the philosopher's text provides a brilliant and incisive new interpretation of this underrated work by the leading Continental philosopher of our time *The New French Philosophy* Ian James, 2014-02-14 This book gives a critical assessment of key developments in contemporary French philosophy highlighting the diverse ways in which recent French thought has moved beyond the philosophical positions and arguments which have been widely associated with the terms post structuralism and postmodernism These developments are assessed through a close comparative reading of the work of seven contemporary thinkers Jean Luc Marion Jean Luc Nancy Bernard Stiegler Catherine Malabou Jacques Rancière Alain

Badiou and François Laruelle The book situates the writing of each philosopher in relation to earlier traditions of French thought In differing ways these philosophers decisively distance themselves from the linguistic paradigm which dominated so much twentieth century thought in order to rethink philosophical conceptions of materiality worldliness shared embodied existence and human agency or subjectivity They thereby open the way for a radical renewal of the claims possibilities and transformative power of philosophical thinking itself This book will be an indispensable text for students of philosophy and for anyone interested in current developments in philosophy and social thought **The Lacanian Left** Yann

Stavrakakis, 2007-08-09 Innovative exploration of the relationship of Lacanian psychoanalysis to political and democratic theory **Badiou and Cinema** Alex Ling, 2013-03-31 Alex Ling employs the philosophy of Alain Badiou and examples

ranging from Hiroshima mon amour to Vertigo to The Matrix to answer the question central to all serious film scholarship can cinema be thought *The New Materialism* Geoff Pfeifer, 2015-02-11 Alain Badiou and Slavoj Žižek have become two of the dominant voices in contemporary philosophy and critical theory In this book Geoff Pfeifer offers an in depth look at their respective views Using Louis Althusser's materialism as a starting point which as Pfeifer shows was built partially as a response to the Marxism of the Parti Communiste Français and partially in dialogue with other philosophical movements and intellectual currents of its times the book looks at the differing ways in which both Badiou's and Žižek's work attempt to respond to issues that arise within the Althusserian edifice Pfeifer argues here that ultimately Žižek's materialism succeeds in responding to these issues in ways that Badiou's does not In building this argument Pfeifer engages not only with the work of Althusser Badiou and Žižek and their intellectual backgrounds but also with much of the contemporary scholarship surrounding these thinkers As such Pfeifer's book is an important addition to the ongoing debates within contemporary critical theory **Badiou and Plato** A.J Bartlett, 2011-06-29 This book will help you to understand Badiou's central concepts

the philosophical relation between Badiou and Plato and will rethink the importance of Badiou's Platonic claim that the only education is an education by truths **The Intellectual: A Phenomenon in Multidimensional Perspectives**

Literature in a Post-Humanist World Benice Spark, 2018-10-11 This book examines the contention that in an era where the relevance of the literary novel is compromised the novel remains an important means of exploring and interrogating societies and culture It answers the question of what we lose with the loss of the novel as an important public space for discourse It does so through readings of a selection of Don DeLillo's later novels together with the political philosophies of Hannah Arendt and Alain Badiou in their engagement with contemporary history DeLillo explores in his fiction the profound cultural and socio political changes and historical events which affect people His literary interest is the status of the

individual in changing times On a personal level his concern is the writer in an epoch where the novel is challenged by crises of diminished relevance in a techno media culture and the emergence of radical forms of censorship that target literature and its producers This book will appeal to students of DeLillo s novels researchers in the disciplines of literature philosophy and contemporary history and students of Badiou and Arendt Arendt s political theories are currently undergoing a renaissance of interest given current global politics

Badiou and Philosophy Sean Bowden,2012-06-27 The first reassessment of Alain Badiou s work since the English translation of his *Logics of Worlds* in 2009 From Cantor to category topos theory from Lacan to Lautman and from Sartre to the subject these 13 essays engage directly with the work of Alain Badiou They focus on the philosophical content of Badiou s work and show how he connects both with his contemporaries and his philosophical heritage This is an important collection for anyone interested in the work of Badiou and contemporary Continental philosophy
