Albatross Of Verse:

Prose Poetry and the City Donna Stonecipher, 2017-11-20 In this fascinating book Donna Stonecipher doubles down on the development of prose poetry and the city. Tactically her sweeping complex yet meticulous essay engages Baudelaire's sudden or is it sudden incursion from the constraints of verse into the roominess of prose paragraphs of place while linking civic horizontality and corporate verticality. Tracking possibilities in using everything from architecture to landscape to cookbooks. It's like her essay exuberantly and expertly gathers together rhizomatic threads of thinkers and poets of the last two centuries. Reads like a song. Norma Cole. This fascinating exploration of the prose poem begins with a question that most other studies have overlooked or taken for granted: What if anything do cities and prose poetry have to do with each other? Donna Stonecipher's touchstone for this question is Charles Baudelaire's prose poems in *Le Spleen de Paris*, but her excavation of the relationship between the built environment of prose poem and city moves backwards to ancient Greece and forwards to the new sentence. As Stonecipher unpacks the dialogic space of the prose poem, her essay moves vertically and horizontally, providing histories of the skyscraper and the aesthetics and ethics of vertical ascension and much else. As she moves nimbly through large swaths of intellectual, architectural, urban, and aesthetic history, Stonecipher engages debates central to poetics and to modernity itself, taking seriously the challenge of considering how aesthetic forms register, respond to, and transform their built social and historical environments. An indispensable and enlightening guide that is also a pleasure to read. Susan Rosenbaum

The Creative Mind in Coleridge's Poetry Kathleen M. Wheeler, 1981 Five of Coleridge's major poems are given fresh scrutiny in this arresting study. One of its unusual features is the attention given the Preface to *Kubla Khan*, the Gloss to *The Ancient Mariner*, and other prose accompaniments to the poems usually dismissed as extraneous. Devices such as these, the author argues, are strategically employed by Coleridge in an effort to engage the reader in a fully imaginative response. Kathleen Wheeler elucidates the texts in terms of aesthetic experience and also in terms of the philosophical principles that inform them, showing how Coleridge's theories of mind and imagination function within the poems and shape their design. A subtle and gifted reader of poetry, she enriches our understanding of poems we thought we knew well and provides insights along the way into the creative process.

The Clive Cussler Adventures Steven Philip Jones, 2014-05-20 The author of more than 50 books, 125 million copies in print, Clive Cussler is the current grandmaster of adventure literature. Dirk Pitt, the sea-loving protagonist of 22 of Cussler's novels, remains among the most popular and influential adventure series heroes of the past half century. This first critical review of Cussler's work features an overview of Pitt and the supporting characters and other heroes, an examination of Cussler's themes and influences, a review of his most important adventures such as *Raise the Titanic* and *Iceberg*, and a look at adaptations of his work in other media. Cussler joins the pantheon of such as Rudyard Kipling, Sir Arthur Conan Doyle, and Ian Fleming, and this overdue volume demonstrates that beneath Cussler's immense popularity lies a literary depth that well merits scholarly attention.

Barwell,2013-10-15 At length did cross an Albatross Through the fog it came As if it had been a Christian soul We hailed it in God s name The introduction of the albatross in Samuel Taylor Coleridge s The Rime of the Ancient Mariner remains one of the most well known references to this majestic seabird in Western culture In Albatross Graham Barwell goes beyond Coleridge to examine the role the bird plays in the lives of a wide variety of peoples and societies from the early views of north Atlantic mariners to modern encounters by writers artists and filmmakers Exploring how the bird has been celebrated in proverbs folk stories art and ceremonies Barwell shows how people marvel at the way the albatross soars through the air covering awe inspiring distances with little effort thanks to its impressive wingspan He surveys the many approaches people have taken to thinking about the albatross over the past two hundred years from those who devoted their lives to these birds to those who hunted them for food and sport and discusses its place in the human imagination Concluding with a reflection on the bird s changing significance in the modern world Barwell considers threats to its continued existence and its prospects for the future With one hundred illustrations from nature film and popular culture Albatross is an absorbing look at these beautiful birds

Handbook of Poetic Forms Jessica Bundschuh,Irmtraud Huber,2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to a wide variety of poetic forms A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used as well as within the literary tradition of each form and to explore the stable as well as the historically variable affordances of each form in such contexts Hereby the focus lies on prescriptive forms that is on poetic forms which are defined by or at least associated with specific metrical stanzaic or overall structures or the absence of such rather than poetic genres that are primarily characterised by similarities in subject matter like the elegy or the ode While this Handbook should be accessible to students its aim is not to offer basic introductions but rather to broaden a historical and functional understanding of the poetic forms it covers and to engage with poetic forms not as givens but as historically contingent processes of formation Above all this Handbook s formalism is new formalist in emphasising historical awareness and contextualisation
