Paul Getty Museum** Christopher Bedford, Penelope Curtis, John Dixon Hunt, 2008 This catalogue celebrates the recently installed collection of twentieth century sculpture donated to the J Paul Getty Trust by the Fran and Ray Stark Trust in 2005 The book takes the reader on a visual tour of the J Paul Getty Museum s new sculpture gardens and installations which features twenty eight works by artists such as Alexander Calder Alberto Giacometti Ferdinand L ger Roy Lichtenstein Ren Magritte Aristide Maillol Joan Mir Henry Moore and Isamu Noguchi The book offers essays on the curatorial decisions involved in establishing harmonious groupings a history of European and American sculpture within built outdoor environments and gardens and catalogue entries that discuss individual pieces within their broader art historical contexts Thinking Art Antoon van den Braembussche, 2009-09-29 In the twentieth century avant garde movements have pushed the concept of art far beyond its traditional boundaries In this dynamical process of constant renewal the prestige of thinking about art as a legitimizing practice has come to the fore So it is hardly surprising that the past decades have been characterized by a revival or even breakthrough of philosophy of art as a discipline However the majority of books on aesthetics fail to combine a systematical philosophical discourse with a real exploration of art practice Thinking Art attempts to deal with this traditional shortcoming It is indeed not only an easily accessible and systematic account of the classical modern and postmodern theories of art but also concludes each chapter with an artist s studio in which the practical relevance of the discussed theory is amply demonstrated by concrete examples Moreover each chapter ends with a section on further reading in which all relevant literature is discussed in detail Thinking Art provides its readers

with a theoretical framework that can be used to think about art from a variety of perspectives More particularly it shows how a fruitful cross fertilization between theory and practice can be created This book can be used as a handbook within departments of philosophy history of art media and cultural studies cultural history and of course within art academies Though the book explores theories of art from Plato to Derrida it does not presuppose any acquaintance with philosophy from its readers It can thus be read also by artists art critics museum directors and anyone interested in the meaning of art Art Books ,1979 Including an international directory of museum permanent collection catalogs Catalogue of the Library of the National Gallery of Canada National Gallery of Canada.
