Stanley Redgrove,2014-06-27 Being a brief

account of the alchemistic doctrines and their relations to mysticism on the one hand and to recent discoveries in the physical science on the other hand together with some particulars regarding the lives and teachings of the most noted alchemists The meaning of alchemy The theory of physical alchemy The alchemists before and after Paracelsus The outcome of alchemy The age of modern chemistry Modern alchemy H Stanley Redgrove best known for his writings on alchemy Early in his scientific career he was associated with Professor John Ferguson and others in forming the Alchemical Society and was appointed editor of its journal that Society was one of the many killed by the last war Redgrove s book on Alchemy Ancient and Modern first published in 1912 is an excellent survey which brings out clearly the connection between the old alchemical doctrines and the conceptions of modern chemistry Scientific Controversies H. Tristram Engelhardt, Jr., Arthur L. Caplan, 1987-04-24 This collection of essays examines the ways in which disputes and controversies about the application of scientific knowledge are resolved Four concrete examples of public controversy are considered in detail the efficacy of Laetrile the classification of homosexuality as a disease the setting of safety standards in the workplace and the utility of nuclear energy as a source of power The essays in this volume show that debates about these cases are not confined to matters of empirical fact Rather as is seen with most scientific and technical controversies they focus on and are structured by complex ethical economic and political interests Drs Engelhardt and Caplan have brought together a distinguished group of scholars from the sciences and humanities who sketch a theory of scientific controversy and attempt to provide recommendations about the ways in which both scientists and the public ought to seek more informed resolutions of highly contentious issues in science and technology Scientific Controversies is offered as a contribution to the better understanding of the roles of both science and nonscientific interests in disputes and controversies pertaining to science and technology
