Problem Drinking Nick Heather,Ian Robertson,1997-08-14 Problem Drinking aims to bridge the gap that exists between the popular understanding of the subject and the modern scientific account of the nature of alcohol problems

Responding to Drinking Problems Stan Shaw,Alan Cartwright,Terry Spratley,Judith Harwin,2023-12-01 In the 1970s family doctors social workers researchers and administrators had been aware of the inadequacy of the response to drinking problems for some time However there had been no systematic examination of why such agents felt negatively about drinkers and disinclined to respond to them Originally published in 1978 this book develops a radical new perspective on the prevalence and causes of drinking problems combining reviews of historical and contemporary literature with the authors own research studies This perspective is then linked to the need for an integrated response from both medical and social services with a particular accent on the need for a community response By focusing on the relationship between helper and helped a solution is sought to the question which has troubled the field for many

years why are agents like family doctors and social workers so inadequate in recognising and responding to people with drinking problems The crucial aspects within the therapeutic relationship are pinpointed and experimental studies are described which show how training casework supervision and the redeployment of expertise can help improve recognition rates and responses to individual drinkers This book thus expresses the need for major changes both in our attitudes and understanding of people with drinking problems and the difficulties of agents who try to help them It should still be of historical interest to social scientists and those involved in helping people with drinking problems *International Handbook of Alcohol Dependence and Problems* Nick Heather,Timothy J. Peters,Tim Stockwell,2001-05-18 Focusing on alcohol dependence and alcohol related problems in general as well as their causes treatment and prevention this handbook also addresses the basic mechanisms of alcohol and its effects on human physiology and behaviour Understanding America's Drinking Problem Don Cahalan,1987 *National Institute on Alcohol Abuse and Alcoholism* National Institute on Alcohol Abuse and Alcoholism (U.S.),1971 **Under the Weather - Coping with Alcohol Abuse and Alcoholism** John G.
