

Gillian Bennett: "Alas, Poor Ghost!"

Traditions of Belief in Story and Discourse (1999)

An evaluation of research methodology and outcome

By Hans Hauenstein

1. Introduction

In this paper I am evaluating a monograph that uses empirical methods to better understand experiences of older women in the UK and the way these experiences are communicated. Focusing on both the individual-experiential and the social-discursive aspect of these processes the book contributes as well to psychological as to sociolinguistic and folklore issues. Part of this interdisciplinary orientation is the co-authorship of the folklorist Gillian Bennett and her daughter Kate Mary Bennett, a gerontological psychologist, whose empirical studies were the base for the third chapter of the book. The basis for the study is an earlier work by Gillian Bennett (1987) that has been revised and expanded.

2. Theoretical background, central concepts and terminology

The theoretical orientation and central issues of the study are accurately described in its subtitle: "Traditions of belief in story and discourse". I will shortly go into these and some other important terms in turn.

2.1 Belief

The main subject of the study are beliefs in specific 'supernatural' topics such as haunting, life after death, telepathy, premonitions, visitations or omens of death.

The Spectralities Reader Maria del Pilar Blanco, Esther Peeren, 2013-08-29 Ghosts spirits and specters have played important roles in narratives throughout history and across nations and cultures A watershed moment for this area of study was the publication of Derrida's *Specters of Marx* in 1993 marking the inauguration of a spectral turn in cultural criticism Gathering together the most compelling texts of the past twenty years the editors transform the field of spectral studies with this first ever reader employing the ghost as an analytical and methodological tool The *Spectralities Reader* takes ghosts and haunting on their own terms as wide ranging phenomena that are not conscripted to a single aesthetic genre or style Divided into six thematically discreet sections the reader covers issues of philosophy politics media spatiality subject formation gender race and sexuality and historiography It anthologizes the previously published work of theoretical heavyweights from different disciplinary and cultural backgrounds such as Jacques Derrida Gayatri Spivak and Giorgio Agamben alongside work by literary and cultural historians such as Jeffrey Sconce and Roger Luckhurst

Troubled by Faith Owen Davies, 2023-08-29 The nineteenth century was a time of extraordinary scientific innovation but with the rise of psychiatry faiths and popular beliefs were often seen as signs of a diseased mind By exploring the beliefs of asylum patients we see the nineteenth century in a new light with science faith and the supernatural deeply entangled in a fast changing world The birth of psychiatry in the early nineteenth century fundamentally changed how madness was categorised and understood A century on their conceptions of mental illness continue to influence our views today Beliefs and behaviour were divided up into the pathological and the healthy The influence of religion and the supernatural became significant measures of insanity in individuals countries and cultures Psychiatrists not only thought they could transform society in the industrial age but also explain the many strange beliefs expressed in the distant past *Troubled by Faith*

explores these ideas about the supernatural across society through the prism of medical history It is a story of how people continued to make sense of the world in supernatural terms and how belief came to be a medical issue This cannot be done without exploring the lives of those who found themselves in asylums because of their belief in ghosts witches angels devils and fairies or because they thought themselves in divine communication or were haunted by modern technology The beliefs expressed by asylum patients were not just an expression of their individual mental health but also provide a unique reflection of society at the time a world still steeped in the ideas and imagery of folklore and faith in a fast changing world

Working Juju Andrea Shaw Nevins, 2019-11-15 *Working Juju* examines how fantastical and unreal modes are deployed in portrayals of the Caribbean in popular and literary culture as well as in the visual arts The Caribbean has historically been constructed as a region mantled by the fantastic Andrea Shaw Nevins analyzes such imaginings of the Caribbean and interrogates the freighting of Caribbean infused spaces with characteristics that register as fantastical These fantastical traits may be described as magical supernatural uncanny paranormal mystical and speculative The book asks throughout What are the discursive threads that run through texts featuring the Caribbean fantastic In *Working Juju* Nevins teases out the multilayered and often obscured connections among texts such as the *Pirates of the Caribbean* film series planter and historian Edward Long's *History of*

Jamaica and Grenadian sci fi writer Tobias Buckell's Xenowealth series set in the future Caribbean. Fantastical representations of the region generally occupy one of two spaces. In the first the Caribbean fantastic facilitates an imagining of the colonial experience and its aftermath as one in which the region and its representatives exercise agency and in which the humanity of the region's inhabitants is asserted. Alternately the fantastic is sometimes situated as a signifier of the irrational and uncivilized. The thread that unites portrayals of the fantastic Caribbean in the latter kind of works is that they tend to locate Caribbean belief systems as powerful even at times inadvertently in contradiction to the text's ideological posture. Nevins shows how the singular Caribbean identity that emerges in these texts is at odds with the complex historical narratives of actual Caribbean countries and colonies.

Monstrous Things Jeffrey Andrew Weinstock, 2022-11-10 An indispensable resource for students and researchers of paranormal myth and media, this book explores the undead and unholy in literature, film, television, and popular culture. Following an introduction to frightful manifestations in media, sections address ghosts, vampires, and monsters individually, and each section includes a broad consideration of the ghost, vampire, or monster in American culture. The section dedicated to ghosts examines the spectral turn of popular culture and the ghost's relation to justice and mourning, with particular attention to Toni Morrison and Herman Melville. In the vampires section, the author considers the undead bloodsucker's relationship to anti-Semitism, suicide, and cinema. The third section discusses monsters in relation to topics such as global pandemics, terrorism, mass shootings, stranger danger, and social otherness, with attention to a range of popular culture texts including the films *IT* and *It Follows*.

Horror and Philosophy Subashish Bhattacharjee, Fernando Gabriel Pagnoni Berns, 2023-11-17 Horror, no matter the medium, has always retained some influence of philosophy. Horror literature, cinema, comic books, and television expose audiences to an alien reality playing with the logical mind and challenging known concepts such as normality, reality, family, and animals. Both making strange what was previously familiar, philosophy and horror feed each other. This edited collection investigates the intersections of horror and philosophical thinking, spanning across media including literature, cinema, and television. Topics covered include the cinema of David Lynch, *Scream*, and *Alien*; Resurrection, the relationships between Jorge Luis Borges and H.P. Lovecraft; horror authors Blake Crouch and Paul Tremblay; Indian film, the television series *Atlanta*, and the horror comic book *Dylan Dog*. Philosophers discussed include Julia Kristeva, George Berkeley, Michel Foucault, and the Cybernetic Culture Research Unit. Using philosophies like posthumanism, Afro-Pessimism, and others, it explores connections between nightmare, allegories, postmodern fragmentation, the inhuman, the sublime, and much more.

Beyond Description Ryan Bishop, John Phillips, Wei-Wei Yeo, 2004-08-02 Treated from a range of disciplinary perspectives, this book addresses and challenges issues of space, historicity, architecture, and textuality by focusing on Singapore's singular position in the region and as a global city.

Mariah of the Spirits Sherry Austin, 2002 Journey with award-winning author Sherry Austin to the brooding, soulful American South where kudzu-covered hills hide dark family secrets, where under the soil of mountainside graveyards, souls

rest uneasily where old plantations are still haunted by a lost cause and where on a moonlit coastal back road a phantom hitchhiker still walks Jacket
