Dominion of Bears Sherry Simpson, 2013-10-18 Long ago we invited bears into our stories our dreams our nightmares our lives We have always sought them out where they live for their hides their meat their beauty their knowingness Human country and bear country exist side by side As Sherry Simpson suggests the relationship between bears and humans is ancient and ongoing and in Alaska profoundly and often uncomfortably close A huge number of North America's bears live in Alaska including at least 31 000 brown bears 100 000 black bears and 3 500 polar bears And nearly every aspect of Alaskan society reflects their presence from hunting to tourism marketing to wildlife management to urban planning A long time Alaskan Simpson offers a series of compelling essays on Alaskan bears in both wild and urban spaces because in Alaska bears are found not only in their natural habitat but also in cities and towns Combining field research interviews and a host of up to date scientific sources her finely polished prose conveys a wealth of information and insight on ursine biology behavior feeding mating social structure and much more Simpson crisscrosses the Alaskan landscape in pursuit of bears as she muses marvels and often stands in sheer awe before these charismatic creatures Firmly grounded in the expertise of wildlife biologists hunters and viewing guides she shows bears as they actually are not as we imagine them to be She considers not only the occasionally aggressive behavior bears need to survive but also the violence exacted upon them by trophy hunters advocates of predator control or suburbanites who view bears as land sharks that threaten the safety of their families Shifting effortlessly between fascinating facts and poetic imagery Simpson crafts an extended meditation on why we are so drawn to bears and why they continue to engage our imaginations populate indigenous mythologies and help define our essential visions of wilderness As Simpson observes The slightest evidence that

bears share your world or that you share theirs can alter not only your sense of the landscape but your sense of yourself within that landscape

Colonial America and the War for Independence US Army Military History Research Collection, Joyce L. Eakin, 1976

Edna Ferber's Hollywood J. E. Smyth, 2010 Edna Ferber's Hollywood reveals one of the most influential artistic relationships of the twentieth century: the four-decade partnership between historical novelist Edna Ferber and the Hollywood studios. Ferber was one of America's most controversial popular historians, a writer whose uniquely feminist, multiracial view of the national past deliberately clashed with traditional narratives of white masculine power. Hollywood paid premium sums to adapt her novels, creating some of the most memorable films of the studio era among them *Show Boat*, *Cimarron*, and *Giant*. Her historical fiction resonated with Hollywood's interest in prestigious historical filmmaking aimed principally, but not exclusively, at female audiences. In *Edna Ferber's Hollywood*, J. E. Smyth explores the research, writing, marketing, reception, and production histories of Hollywood's Ferber franchise. Smyth tracks Ferber's working relationships with Samuel Goldwyn, Leland Hayward, George Stevens, and James Dean; her landmark contract negotiations with Warner Bros. and the controversies surrounding *Giant*'s critique of Jim Crow Texas. But *Edna Ferber's Hollywood* is also the study of the historical vision of an American outsider: a woman, a Jew, a novelist with few literary pretensions, an unashamed middlebrow who challenged the prescribed boundaries

among gender race history and fiction In a masterful film and literary history Smyth explores how Ferber s work helped shape Hollywood s attitude toward the American past **Wilderness in the Circumpolar North** ,2002 There are growing pressures on undeveloped wild places in the Circumpolar North Among them are pressures for economic development oil and gas exploration and extraction development of geothermal energy resources development of heavy industry close to energy sources and lack of appreciation for other orientations toward wilderness resources by interested parties from broad geographical origins An international seminar in Anchorage Alaska in May of 2001 was the first step in providing basic input to an analysis of the primary set of values associated with Circumpolar North wilderness and the constraints and contributors factors of influence that either limit or facilitate receipt of those values to various segments of society
