throughout the book that serve to instruct to inspire and to send us on unique word journeys of the mind and heart **A Reader's Guide to Fifty Modern European Poets** John Pilling, 1982 From the Blurb The last century and a quarter has been one of the most fertile periods for poetry in Europe and there has been a corresponding increase in interest among English speaking readers Although the debate about whether poetry is translatable continues John Pilling believes that this growing readership is evidence of a substratum present in every poetic utterance which enables it to survive and withstand translation Indeed it would be a remarkable linguist who could tackle all the writers included here in their original language and it would be an enormous loss to refuse to do otherwise Apart from the five main European tongues French German Italian Spanish Russian the study includes poets writing in Portuguese Serbo Croat Polish and Greek The book opens with a consideration of the great French poets Baudelaire Mallarmé Verlaine Rimbaud who must be the starting point of any survey of modern European poetry The author goes on to consider the brilliant generation of Russians writing before and during the Revolution Akhmatova Mandelstam Tsvetaeva Mayakovsky He does not however neglect the more diverse strands in the rest of Europe including for the purposes of this study the important work being done in Spanish America by Paz Neruda and Borges For each poet the author gives a brief outline of his or her life and major publications then a more detailed consideration of their poetic oeuvre placing it in its context There is also a very detailed and extensive bibliography The book is aimed at the non specific reader who wants a straightforward guide to a diverse and very rich area of contemporary writing Above all it is intended to encourage the reader to return to or discover for the first time the poetry itself

Modernity as Exception and Miracle Eduardo Sabrovsky, 2020-08-01 Translated from the Spanish *De lo extraordinario Nominalismo y Modernidad* this book argues that a defining aspect of modernity is an ever increasing pursuit of and need for what Eduardo Sabrovsky calls the extraordinary a term that encompasses both the exception and the miraculous Sabrovsky shows the degree to which Robert Musil's novel *The Man without Qualities* functions as a paradoxical paradigm of the extraordinary and he extends the theoretical insights drawn from Musil's magisterial work through a series of inquiries into cardinal elements of modern literature material culture historiography physical science psychoanalysis and political theory Sabrovsky demonstrates how the extraordinary condition of modernity emerges from the debates conducted by the last representatives of medieval scholasticism in which nominalism defeated realism and he resituates the results of this triumph of nominalism in the writings of Friedrich Nietzsche Theodor Adorno Walter Benjamin and Georges Bataille among others

British Writers Ian Scott-Kilvert, 2002 This collection of critical essays covers writers who have made significant contributions to British Irish and Commonwealth literature from the 14th century to the present day **The Publishers Weekly**, 2007 **A Companion to Pablo Neruda** Jason Wilson, 2014-08 Pablo Neruda was without doubt one of the greatest poets of the twentieth century but his work is extremely uneven There is a view that there are two Nerudas an early Romantic visionary and a later Marxist populist who denied his earlier poetic self By focussing on the poet's apprenticeship

and by looking closely at how Neruda created his poetic persona within his poems this Companion tries to establish what should survive of his massive output By seeing his early work as self exploration through metaphor and sound as well as through varieties of love and direct experience the Companion outlines a unity behind all the work based on voice and a public self Neruda s debt to reading and books is studied in depth and the change in poetics re examined by concentrating on the early work up to Residencia en la tierra I and II and why he wanted to become a poet Debate about quality and representativity is grounded in his Romantic thinking sensibility and sincerity Unlike a Borges or a Paz who accompanied their creative work with analytical essays Neruda distilled all his experiences into his poems which remain his true biography Jason Wilson is Professor Emeritus in the Department of Spanish and Latin American Studies University College London
