Albert Anker,Christie, Manson & Woods,1990 **Le Corbusier, the Noble Savage** Adolf Max Vogt,Le Corbusier,1998 Vogt s investigation of LC s early life and education not only reveals important previously unacknowledged influences on specific projects such as the League of Nations headquarters and the Villa Savoye but also suggests why LC throughout his career preferred to lift buildings above the ground to give them the appearance of floating This tendency had decisive consequences for buildings associated with the modern movement and continues to influence architecture today **Art Books** Wolfgang M. Freitag,2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition **Albert Anker , The Laboratory of Progress** Joseph Jung,2022-09-16 The Laboratory of Progress Switzerland in the 19th Century tells the improbable story of how a small backward mountainous agricultural country with almost no raw materials became an industrial powerhouse a hub of innovation a touristic mecca and a pioneer in transportation all in the course of a single century That a tiny landlocked country should become a dominant steamship builder for the rest of the world that a country that had never seen a cotton plant should become the world s second largest textile producer that a country with hardly any level terrain should come to boast the world s most highly developed railway network and that a country whose main export was impoverished emigrants should be transformed into one of the world s major financial centres these astonishing developments among many others are explored and explained both through the specific stories of individual innovators and through a prescient analysis of the political economic societal and cultural structures that formed the context in which Switzerland s astonishing transformation took place The book is a compelling read both for professional historians and for general readers with an interest in Switzerland it highlights the roles of transport networks and individual pioneers in industrial and political development *Albert Anker, 1831-1910* Kunsthaus Zürich,1911 Nationalism, Religious Violence, and Hate Speech in Nineteenth-Century Western Europe Francisco Javier Ramón Solans,2024-04-01 Nationalism Religious Violence and Hate Speech in Nineteenth Century Western Europe critically

analyses the role played by different memories of past religious violence in public debates in nineteenth century Europe. Looking back, European societies often did not seek to overcome their differences and create a framework of peaceful coexistence among various religions and denominations but rather more frequently to fuel intra and inter religious hatred. Moreover, various violent pasts were mobilised to define what and who was intolerant in order to mark the other as intolerant and therefore incompatible with societal values. To examine conflicting memories of violence and hatred, this book focuses on commemorations, statues, publications and public polemics surrounding past religious violence. Three elements serve as a framework to explain the conflictive nature of these memories of intolerance: the age of commemorations, the culture wars and the second confessional age. The authors explore cases in France, Germany, Italy, Spain, Switzerland, the United Kingdom and the Low Countries, covering Catholicism, Protestantism, Anglicanism, Islam and Judaism. The book focuses on iconic victims such as Giordano Bruno and Michael Servetus, collective massacres and discourses surrounding religious hatred in events such as the Crusades. The cases of religious violence remembered in the nineteenth century span the Middle Ages and the intense period of religious violence known as the confessional age. This book will appeal to students and scholars of politics, religious tolerance and freedom, hate speech, nationalism, religious history and European history.

EC Law and the Sovereignty of the Member States in Direct Taxation Mathieu Isenbaert, 2010. In order to develop a suitable framework for the analysis of the European Court of Justice (ECJ) case law, it is first analysed what significance, if any, the concept of sovereignty has in the contemporary supranational environment of the European Union. All too often, tax scholars equate sovereignty with the concepts of competence or jurisdiction. It will be established in this thesis that a much more specific and higher level meaning is to be attributed to the sovereignty concept which goes beyond the strictly legal concepts of competence or jurisdiction. The

cornerstone of this thesis however is an extensive analysis of the case law of the ECJ in direct tax matters including a comparison with its non tax case law A new kind of methodology is used in discussing the cases they are categorized according to whether a discrimination or a restriction based analysis was applied by the ECJ *The Textbook and the Lecture* Norm Friesen,2017-12-15 Machine generated contents note Preface Part I 1 No More Pencils No More Books 2 Writing Instruction in the Twenty First Century Part II 3 Psychology and the Rationalist4 The Romantic Tradition5 Romantic versus Rationalist Reform6 Theorizing Media by the Book Part III 7 A Textbook Case8 From Translatio Studiorum to Intelligences Thinking in Unison9 The Lecture as Postmodern PerformanceConclusionNotesBibliography Index Designing for Education Compendium of Exemplary Educational Facilities 2011 OECD,2011-09-29 Designing for Education Compendium of Exemplary Educational Facilities 2011 showcases over 60 recently built or refurbished educational facilities from 28 countries Collectively these projects demonstrate state of the art design in this field *Illegally on Everest* Hans-Peter Duttler,2025-03-06 ILLEGAL ON EVEREST By Hans Peter Duttler Unthinkable Impossible That s what Swiss Hans Peter Duttler would have had to listen to before he set off for the Himalayas if he had told about his plans back in 1962 But he didn t He set off secretly to climb Everest via forbidden Tibet with three American alpinists Illegally poorly equipped without altitude support satellite radio or a doctor The four of them didn t even have any altitude appropriate sunscreen with them It was as Hans Peter Duttler says today a suicide mission Trying to tackle an eight thousander in this way was an absolute novelty at the time Today it s called alpine style Alexandra Rozkosny Editor in Chief of The Alps Swiss Alpine Club
