Albert Camus On The Sacred And The Secular An Introduction To His Thought:

Albert Camus on the Sacred and the Secular James W. Woelfel, 1987-02-27 First published in 1975 by Abingdon Press this volume looks at the central role of religious images and issues in Camus's writings as a key to understanding his whole thought While it is not biography it does relate aspects of his life which stand in ultimate relationship to his ideas

Colonial and Anti-Colonial Discourses Ena C. Vulor, 2000-12-20 Colonial and Anti Colonial Discourses underscores the relationship between literature history and politics The comparative historical cultural analysis of the works of Albert Camus Mouloud Mammeri Mouloud Feraoun and Mohammed Dib provide not only interesting perspective from which to re evaluate Camus fiction but also an extremely valuable insight into the colonial history and politics of Algeria The author examines the ideological parameters colonial history French assimilationist practices politics of citizenship etc that provide a generative context for the birth of Algerian Literature in French The work's strength and contribution to scholarship particularly to the growing field of post colonial cultural critique lie in its attempt to read the fictions of Camus from the perspective of North African literary tradition as opposed to a French literary tradition It brings his writings into a mutual dialogic interrogation with those of Indigenous North African writers whose fictions articulate a state of cultural heterogeneity at the very moment when they confront the problem of Western particularly French hegemony This book is of interest to scholars and graduate students of French literature Francophone African literature and Cultural Studies

Llanera, 2020-06-10 The book makes a new contribution to the contemporary debates on nihilism and the sacred Drawing on an original interpretation of Richard Rorty's writings it challenges the orthodox treatment of nihilism as a malaise that human beings must overcome Instead nihilism should be framed as a problem for human culture to outgrow through

Science Fiction and the Imitation of the Sacred Richard Grigg, 2019-12-26

This book examines science fiction's relationship to religion and the sacred through the lens of significant books films and television shows It provides a clear account of the larger cultural and philosophical significance of science fiction and explores its potential sacrality in today's secular world by analyzing material such as Ray Bradbury's classic novel *The Martian Chronicles* films *The Abyss* and *2001 A Space Odyssey* and also the *Star Trek* universe Richard Grigg argues that science fiction is born of nostalgia for a truly Other reality that is no longer available to us and that the most accurate way to

see the relationship between science fiction and traditional approaches to the sacred is as an imitation of true sacrality this he suggests is the best option in a secular age He demonstrates this by setting forth five definitions of the sacred and then in consecutive chapters investigating particular works of science fiction and showing just how they incarnate those definitions Science Fiction and the Imitation of the Sacred also considers the qualifiers that suggest that science fiction can only imitate the sacred not genuinely replicate it and assesses the implications of this investigation for our understanding of secularity and science fiction *Academy, with which are Incorporated Literature and the English Review* ,1885 **American Book Publishing Record** ,1987 *Books in Print Supplement* ,1988 **Academy and Literature** Charles Edward Cutts Birch Appleton,Charles Edward Doble,James Sutherland Cotton,Charles Lewis Hind,William Teignmouth Shore,Alfred Bruce Douglas,Ellis Ashmead-Bartlett,Thomas William Hodgson Crosland,1885 **The academy** ,1885 *Secularisations and Their Debates* Matthew Sharpe,Dylan Nickelson,2013-10-30 This volume explores timely topics in contemporary political and social debates including the new atheisms the debate between Habermas and the Pope on the fate of modernity and the impact of new scientific developments on traditional religions This book collects articles first presented at the Deakin University World in Crisis workshop held November 2010 by leading Australasian philosophers and theologians It addresses questions raised by the recent much touted return to religion including possible reasons for the return and its practical political and intellectual prospects Secularisation and Their Debates is not afraid to provide answers to such questions as Is religion only ever a force of political reaction in modernity or are there resources in it which progressive even secular social movements could engage with or adopt Are the new atheisms or on the opposite side the new fundamentalisms really novel phenomena or has religion only ever been artificially sidelined in the modern Western states Has modern liberalism only really been kidding itself about its non doctrinal neutrality between different faiths and if so what should follow This book will appeal to researchers in the philosophy of religion social sciences political philosophy and anthropology **The Philosopher's Index** ,1995 An international index to philosophical periodicals
