Airfields Of The Eighth Then Now:

Airfields of the Eighth Then and Now Roger Anthony Freeman, 1978 This work is a nostalgic look at the airfields used by the Eighth in the United Kingdom during the World War II. Conceived in war the airfields experienced their moments of glory and when the war ended were left empty and derelict to die. The few which remain virtually intact have only survived because some private or public concern has formed a practical use for them although not always as airfields. Some of the more remote airfields still dot the countryside the same as when the last plane left their runways and the last truck departed through the main gate. They are bleak windswept and mouldering but they retain the atmosphere of the fine high endeavours of the people who inhabited them and the aura of ineffable sadness that hangs over memorials to fighting men. *Airfields Of 8th* Roger Freeman, 1978-02-28 A unique nostalgic look at the airfields used by the Eighth in the United Kingdom during the Second World War. For such they are. *RAF and USAAF Airfields in the UK During the Second World War* Geoff Mills, Daniel Knowles, 2022-03-31 Shortly after the end of the Second World War the United Kingdom was described as one vast aircraft carrier anchored off the coast of Europe. During a seven year period 500 airfields were constructed to serve the needs first of the RAF and later the USAAF as they carried the war to German occupied Europe. The airfields that were constructed took many different forms from training airfields and Advanced Landing Grounds to grass fighter airstrips and vast complexes used to accommodate heavy bombers. This book charts the history of each Second World War airfield in and around the UK providing a unique insight in to the construction operational life and post war history of each airfield. Alongside detailing the history of each airfield this work comprehensively records the details of each unit that operated from airfields around the UK. The information provided in this meticulously researched book is supported by a wealth of 690 photographs providing an illustration into the life of each wartime station. **Airfields of the Eighth** Roger Anthony Freeman, 1992 **Airfields of the Eighth**, 1989 **B-17 Groups of the Eighth Air Force** Martin W. vivid sometimes too vivid picture of war at its most elemental The Journal of the Air Force Historical Foundation In February 1942 a reconnaissance party of United States Army Air Force officers arrived in England Firmly wedded to the doctrine of daylight precision bombing they believed they could help turn the tide of the war in Europe In the months that followed they formed the Eighth Air Force an organization that grew at an astonishing rate To accommodate it almost seventy airfields were hastily built across the eastern counties of England At the heart of the Eighth Air Force was its bombardment groups each equipped with scores of heavily armed four engine bombers These Boeing B 17 Flying Fortresses and Consolidated B 24 Liberators were soon punching through the enemy s defenses to bomb targets vital to its war effort They were crewed by thousands of young American airmen most of whom were volunteers This book tells the story of just one Bomb Group the 381st which crossed the Atlantic in May 1943 Arriving at RAF Ridgewell on the Essex Suffolk border its airmen quickly found themselves thrown into the hazardous and attritional air battle raging in the skies over Europe The 381st s path led from its formation in the Texan desert to its 297th and final bombing mission deep into the heart of Hitler s Third Reich This is the remarkable story of one group and the part it played in the strategic bombing campaign of The Mighty Eighth *2nd Air Division Air Force USAAF 1942-45* Martin W. Bowman,2007-04-19 A history and guide to historic British airfields where American bombers were prepared to take off at a moment s notice includes photos As part of the AHT series the airfields and interest in this book are concentrated in a particular area in this case Norfolk and Suffolk The Second Air Division s first bombing mission was flown on November 7 1942 the last on April 25 1945 A total of 95 948 sorties were flown in 493 operational missions by the division s B 24s dropping 199 883 tons of bombs Targets attacked ranged from Norway in the north as far east as Poland and Romania while several Mediterranean countries were reached from temporary bases in North Africa Six 2nd Air Division groups received special presidential citations for outstanding actions and five airmen received the Medal of Honor highest US award for bravery four posthumously In combat the 2nd Air Division gunners claimed 1 079 enemy fighters destroyed against losses of 1 458 B 24s missing in action and many others lost in accidents This book looks at the history and personalities associated with each base what remains today and explores the favourite local wartime haunts where aircrew and ground crew would go Militarized Landscapes Chris Pearson,Peter Coates,Tim Cole,2010-08-05 Preparation for warfare materially reshapes rural landscapes and environments This is a comparative history and geography of militarized landscapes **Air Force Magazine** ,2015 **Aerospace Historian** ,1979 American Airpower Comes of Age General Henry H. Arnold,2004-10 This volume has richly enhanced General Henry H Hap Arnold s reputation as the father of today s United States Air Force Major General John W Huston himself an Army Air Forces combat veteran of the war has edited each of Arnold s World War II diaries and placed them in their historical context while explaining the problems Hap faced and evaluating the results of his travels General Huston a professional historian has taught at both the US Air Force Academy and the US Naval Academy A former Chief of the Office of Air Force History and an experienced

researcher both here and abroad in the personal and official papers of the war's leaders he has been careful to let Hap speak for himself. The result is an account of the four year odyssey that took Arnold to every continent but one as he took part in deliberations that involved Allied leaders in major diplomacy strategy meetings with Franklin D Roosevelt Harry S Truman Winston Churchill Josef Stalin Charles de Gaulle and Chiang Kai shek. At those meetings Hap recorded the comments of the various participants. His 12 diaries contain his own thoughts which range from being lost over the Himalayas to comforting the wounded as they were airlifted from the Normandy beaches. He experienced an air raid in London and viewed the carnage in recently liberated Manila. Arnold recorded his honest impressions from private meetings with King George VI in Buckingham Palace to eating from mess kits with his combat crews in the North African desert all while perceptively commenting on the many issues involved and assessing the people the culture and the surroundings. This volume offers the best assessment we have of Hap as he survived four wartime heart attacks and continued to work tirelessly for proper recognition of airpower. It will also continue my emphasis while Chief of Staff of the US Air Force on encouraging professional reading through making historical accounts available to personnel of the finest air force in the world a success achieved in large part because of Hap Arnold. Odyssey of a Bombardier John J. Hurt, Steven E. Sidebotham, 2014-09-26 Odyssey of a Bombardier is the illustrated Prisoner of War log that depicts the experiences of bombardier Richard M Mason in German prison camps after his B 17 Flying Fortress was shot down by the Germans in France in 1944 the final year of World War II. The log follows Mason from the day his plane crashed until his liberation in April 1945 and his return home to the United States. Included are such topics as medical treatment and rehabilitation for wounded prisoners of the Germans life in Stalag Luft III a difficult long march in an arctic winter to another camp the travails of prisoners in the overcrowded filthy camp at Moosburg critical food shortages and the arrival of General George Patton with the liberating forces. Mason was an amateur artist and illustrated his journal with moving depictions of prison life and comradeship.
