Index-catalogue of the Library of the Surgeon-General's Office, United States Army National Library of Medicine (U.S.), 1941 **The Evolution of the Long-necked Giraffe (*Giraffa Camelopardalis* L.)** Wolf-Ekkehard Lönning, 2011 Darwin 1871 and many African folk legends before him proposed a simple but powerful explanation for the large and elongated shape Long necks allowed giraffe to outreach presumed competitors particularly during dry season bottlenecks when leaves become scarce Simmons and Scheepers However this old African folk legend which is still commonly taught in high schools fails to explain among other things the size differences between males and females Giraffe cows are up to 1.5 meters shorter than the giraffe bulls not to mention the offspring The wide migration range of the giraffe and the low heights of the most common plants in their diet likewise argue against the dominant selection hypothesis Also 1 The fossil links which according to the theory should appear successively and replace each other usually exist simultaneously for long periods of time 2 Evolutionary derivations based on similarities rely on circular reasoning 3 The giraffe has eight cervical vertebrae Although the 8th vertebra displays almost all the characteristics of a neck vertebra as an exception to the rule the first rib pair is attached there 4 The origin of the long necked giraffe by a macromutation is due to the many synorganized structures extremely improbable 5 Sexual selection also lacks a mutational basis and what is more is frequently in conflict with natural selection head clubbing is probably a consequence of a long neck and not a cause see also Mitchell et al 2009 6 In contrast to the thus far proposed naturalistic hypotheses the intelligent design theory is basically testable 7 The long necked giraffes possibly all belong to the same basic type inasmuch as 8 a gradual evolution from the short necked to the long necked giraffe is ruled out by the duplication of a neck vertebra and the loss of a thoracic vertebra 9 Chance mutations are principally not sufficient to explain the origin of the long necked giraffe 10 The intelligent design theory offers an adequate and satisfying solution to the problems and points to numerous old and new research projects 11 Mitchell and Skinner present a good analysis of the selectionist problem however their phylogenetic hypotheses presuppose the correctness of the synthetic evolutionary theory and their claims of intermediate forms are unproven similarly summary Part 2 Part 1 shows why Dawkins

and Kutschera are wrong The scientific facts speak for design Enchanting Alaska and Exotic Hawaiian Islands Monimala Ganguly, Diary of a Fascinating Journey to Alaska and Hawaii Let me share a few words about the book America is a vast country filled with diverse natural beauty across various states Among these two exceptionally beautiful states or islands are Alaska and the Hawaiian archipelago It was my privilege to visit these two places My interest in Alaska began during my childhood through geography lessons Hawaii on the other hand intrigued us endlessly These two places are not just about natural beauty they possess unique characteristics of their own The inhabitants their customs attire cuisine religious practices and language set them apart from many other places I ve spent nearly twelve days in Alaska mesmerized by its natural beauty From the vast mountain ranges to the tundra regions Arctic areas glacier landings sea planes cruises and experiencing the ocean currents I ve tried to capture every experience in my book I ve endeavored to bring readers into that dream world The extent of my success can only be judged by the readers Including a few pictures will enhance the readers connection with the book I ve tried to provide information but instead of burdening the book with facts I ve aimed to take readers on a journey with me If through my writing I can bring joy to a few travel enthusiasts then my effort will be worthwhile I ve spent around 22 days touring the four main islands of Hawaii The serene beauty of the Pacific Ocean referred to as the queen or heaven of the tranquil ocean due to my son s profound desire urged me to take up the pen and sketch my experiences in diary form I ve attempted to convey the religious practices deities the spirit of aloha language and daily life of the Hawaiian islanders through words trying to immerse readers in the essence of these islands The abundant treasures of nature the amalgamation of colors scents and flavors of these two places have been captured I ve wielded my pen as the only means to portray the unadulterated gift of nature Perhaps it s not an easy task but I believe that with perseverance and sincerity human endeavor capable of winning the hearts of readers I hope this composition emanating from my heart will resonate with the hearts of readers I cherish the hope that I can do justice to the opportunity you ve given me I look forward to presenting more compositions to my readers Countless thanks **Field Survey of Growth and**
