Al Mughtaribun:

Gibran, Rihani & Naimy Aida Imangulieva, 2010-04-01 Originally published in Russian during the final years of the Soviet Union this volume examines the influences of foreign literary movements specifically Romanticism and Realism on the three authors examined within By viewing Gibran and Rihani's works in the light of English poets such as Wordsworth Byron and Shelley and American writers such as Emerson and Whitman and by exploring Naimy through the lens of the Russian Realist tradition drawing parallels specifically with the work of Belinsky Tolstoy Turgenev and the Chekhovian tradition this work provides an unusual window into the Arab world's cultural interaction with Europe America and Russia in the early 20th century At the same time it reaches beyond its academic scope and reveals universal elements that speak to all people and go beyond cultural frameworks altogether

Sa'udi Policies towards Migrants and Refugees Joseph A. Kéchichian, Fahad Alsharif, 2021-09-22 A Sacred Duty sets out the Kingdom's policy toward the global issue of migrants and refugees with special emphasis directed toward Muslim societies Discussion focuses on refugee communities currently living in Saudi Arabia some of which migrated due to war forced displacement environmental catastrophe and economic hardship Some migrants have come from bordering countries such as Iraq and Yemen others reached the Arabian Peninsula from Africa and Asia All have been welcomed and cared for though settlement conditions repatriation and deportation circumstances were not always ideal Inevitably and mirroring experience elsewhere in the world there are undeniable gulfs between policies and practices Policy shortcomings are measured against the substantive assistance planks that Riyadh espouses including providing financial aid to refugees in third countries over and above United Nations appeals These acts are done without prejudice and mostly without publicity Aid to the needy is justified by religious obligations as well as on humanitarian grounds Saudi Arabia's aid contributions have generally been either overlooked or dismissed and the religious foundations of their commitment to displaced populations has been negatively contrasted against human rights based commitments espoused by Western states and institutions Sa'udi Policies Towards Migrants and Refugees addresses these concerns filling a key gap in the literature on a vital policy topic The book refutes notions that the country discourages open research on sensitive topics and further dispels the prejudiced idea of a society closed to any kind of external influence Saudi Arabia's granting of hospitality to refugees reinforces historic tribal and universal norms in contrast to misplaced notions of hostility toward Western standards which in the case of migrants and refugees has seen the application of confused and alarming standards of behaviour by a plethora of Western states Published in conjunction with the King Faisal Center for Research and Islamic Studies KFCRIS

Muslim Prisoner Litigation SpearIt, 2023-09-19 Since the early 1960s incarcerated Muslims have used legal action to establish their rights to religious freedom behind bars

and improve the conditions of their incarceration Inspired by Islamic principles of justice and equality these efforts have played a critical role in safeguarding the civil rights not only of imprisoned Muslims but of all those confined to carceral settings In this sweeping book the first to examine this history in depth SpearIt writes a missing chapter in the history of Islam in America while illuminating new perspectives on the role of religious expression and experience in the courtroom

Teaching Islam Brannon M. Wheeler, 2003 The critical role of Islam in global affairs makes it an increasingly valuable part of the undergraduate curriculum Despite this very little consideration has been given to methods of teaching Islam This book brings together leading scholars to offer perspectives on teaching Islam to undergraduates *Not Quite American?* Yvonne Yazbeck Haddad, 2004 In this essay Yvonne Haddad explores the history of immigration and integration of Arab Muslims in the United States and their struggle to legitimate their presence in the face of continuing exclusion based on race nationalist identity and religion

Muslims in the United States Karen Isaksen Leonard, 2003-06-19 As the United States wages war on terrorism the country's attention is riveted on the Muslim world as never before While many cursory press accounts dealing with Muslims in the United States have been published since 9/11 few people are aware of the wealth of scholarly research already available on the American Islamic population In *Muslims in the United States* The State of Research Karen Isaksen Leonard mines this rich vein of research to provide a fascinating overview of the history and contemporary situation of American Muslim communities Leonard describes how Islam never a monolithic religion has inevitably been shaped by its experience on American soil American Muslims are a religious minority and arbiters of Islamic cultural values and jurisprudence must operate within the framework of America's secular social and legal codes while coping with the ethnic differences among Muslim groups that have long divided their communities Arab Muslims tend to dominate mosque functions and teaching Arabic and the Qur'an whereas South Asian Muslims have often focused on the regional and national mobilization of Muslims around religious and political issues By the end of the 20th century however many Muslim immigrants had become American citizens prompting greater interchange among these groups and bridging some cultural differences African American Muslims remain the most isolated group a minority within a minority Many African American men have converted to Islam while in prison leading to a special concern among African American Muslims for civil and religious rights within the prison system Leonard highlights the need to expand our knowledge of African American Muslim movements which are often not regarded as legitimate by immigrant Muslims Leonard explores the construction of contemporary American Muslim identities examining such factors as gender sexuality race class and generational differences within the many smaller national origin and sectarian Muslim communities including secular Muslims Sufis and fundamentalists *Muslims in the United States* provides a thorough account of the impact of September 11th on the Muslim community Before the terrorist attacks Muslim leaders had been mostly optimistic envisioning a growing role for Muslims in U.S. society Afterward despite a brave show of unity and support for the nation Muslim organizations

became more open in showing their own conflicts and divisions and more vocal in opposing militant Islamic ideologies By providing a concise summary of significant historical and contemporary research on Muslims in the United States this volume will become an essential resource for both the scholar and the general reader interested in understanding the diverse communities that constitute Muslim America *The Diversity of Muslims in the United States* Qamar-ul Huda,2006

Muslims in the West Yvonne Yazbeck Haddad,2002-04-11 Today Muslims are the second largest religious group in much of Europe and North America The essays in this collection look both at the impact of the growing Muslim population on Western societies and how Muslims are adapting to life in the West Part I looks at the Muslim diaspora in Europe comprising essays on Britain France Germany Switzerland Norway Sweden Denmark Italy and the Netherlands Part II turns to the Western Hemisphere and Muslims in the U S Canada and Mexico Throughout the authors contend with such questions as Can Muslims retain their faith and identity and at the same time accept and function within the secular and pluralistic traditions of Europe and America What are the limits of Western pluralism Will Muslims come to be fully accepted as fellow citizens with equal rights An excellent guide to the changing landscape of Islam this volume is an indispensable introduction to the experiences of Muslims in the West and the diverse responses of their adopted countries *Deconstructing the*

Muslims on the Americanization Path? Yvonne Yazbeck Haddad, John L. Esposito, 2000-05-11 Islam is the fastest growing religion in the United States There are more Muslims in America than in Kuwait Qatar and Libya together Leaving aside immigration and conversion birthrate alone ensures that in the first part of the twenty first century Islam will replace Judaism as the nation s second largest religion Like all religious minorities in America Muslims must confront a host of difficult questions concerning faith and national identity Can they become part of a pluralistic American society without sacrificing their identity Can Muslims be Muslims in a state that is not governed by Islamic law Will the American legal system protect Muslim religious and cultural differences Is there a contradiction between demanding equal rights and insisting on maintaining a distinctively separate identity Will the secular and or Judeo Christian values of American society inhibit the Muslim practice of religious faith While the Muslims of America are indeed on the path to Americanization what that means and what that will yield remains uncertain In this thoughtful and wide ranging volume fourteen distinguished scholars take an in depth look at these issues and examine the varied responses and opinions of the Muslim community
